

Intersection of leading software

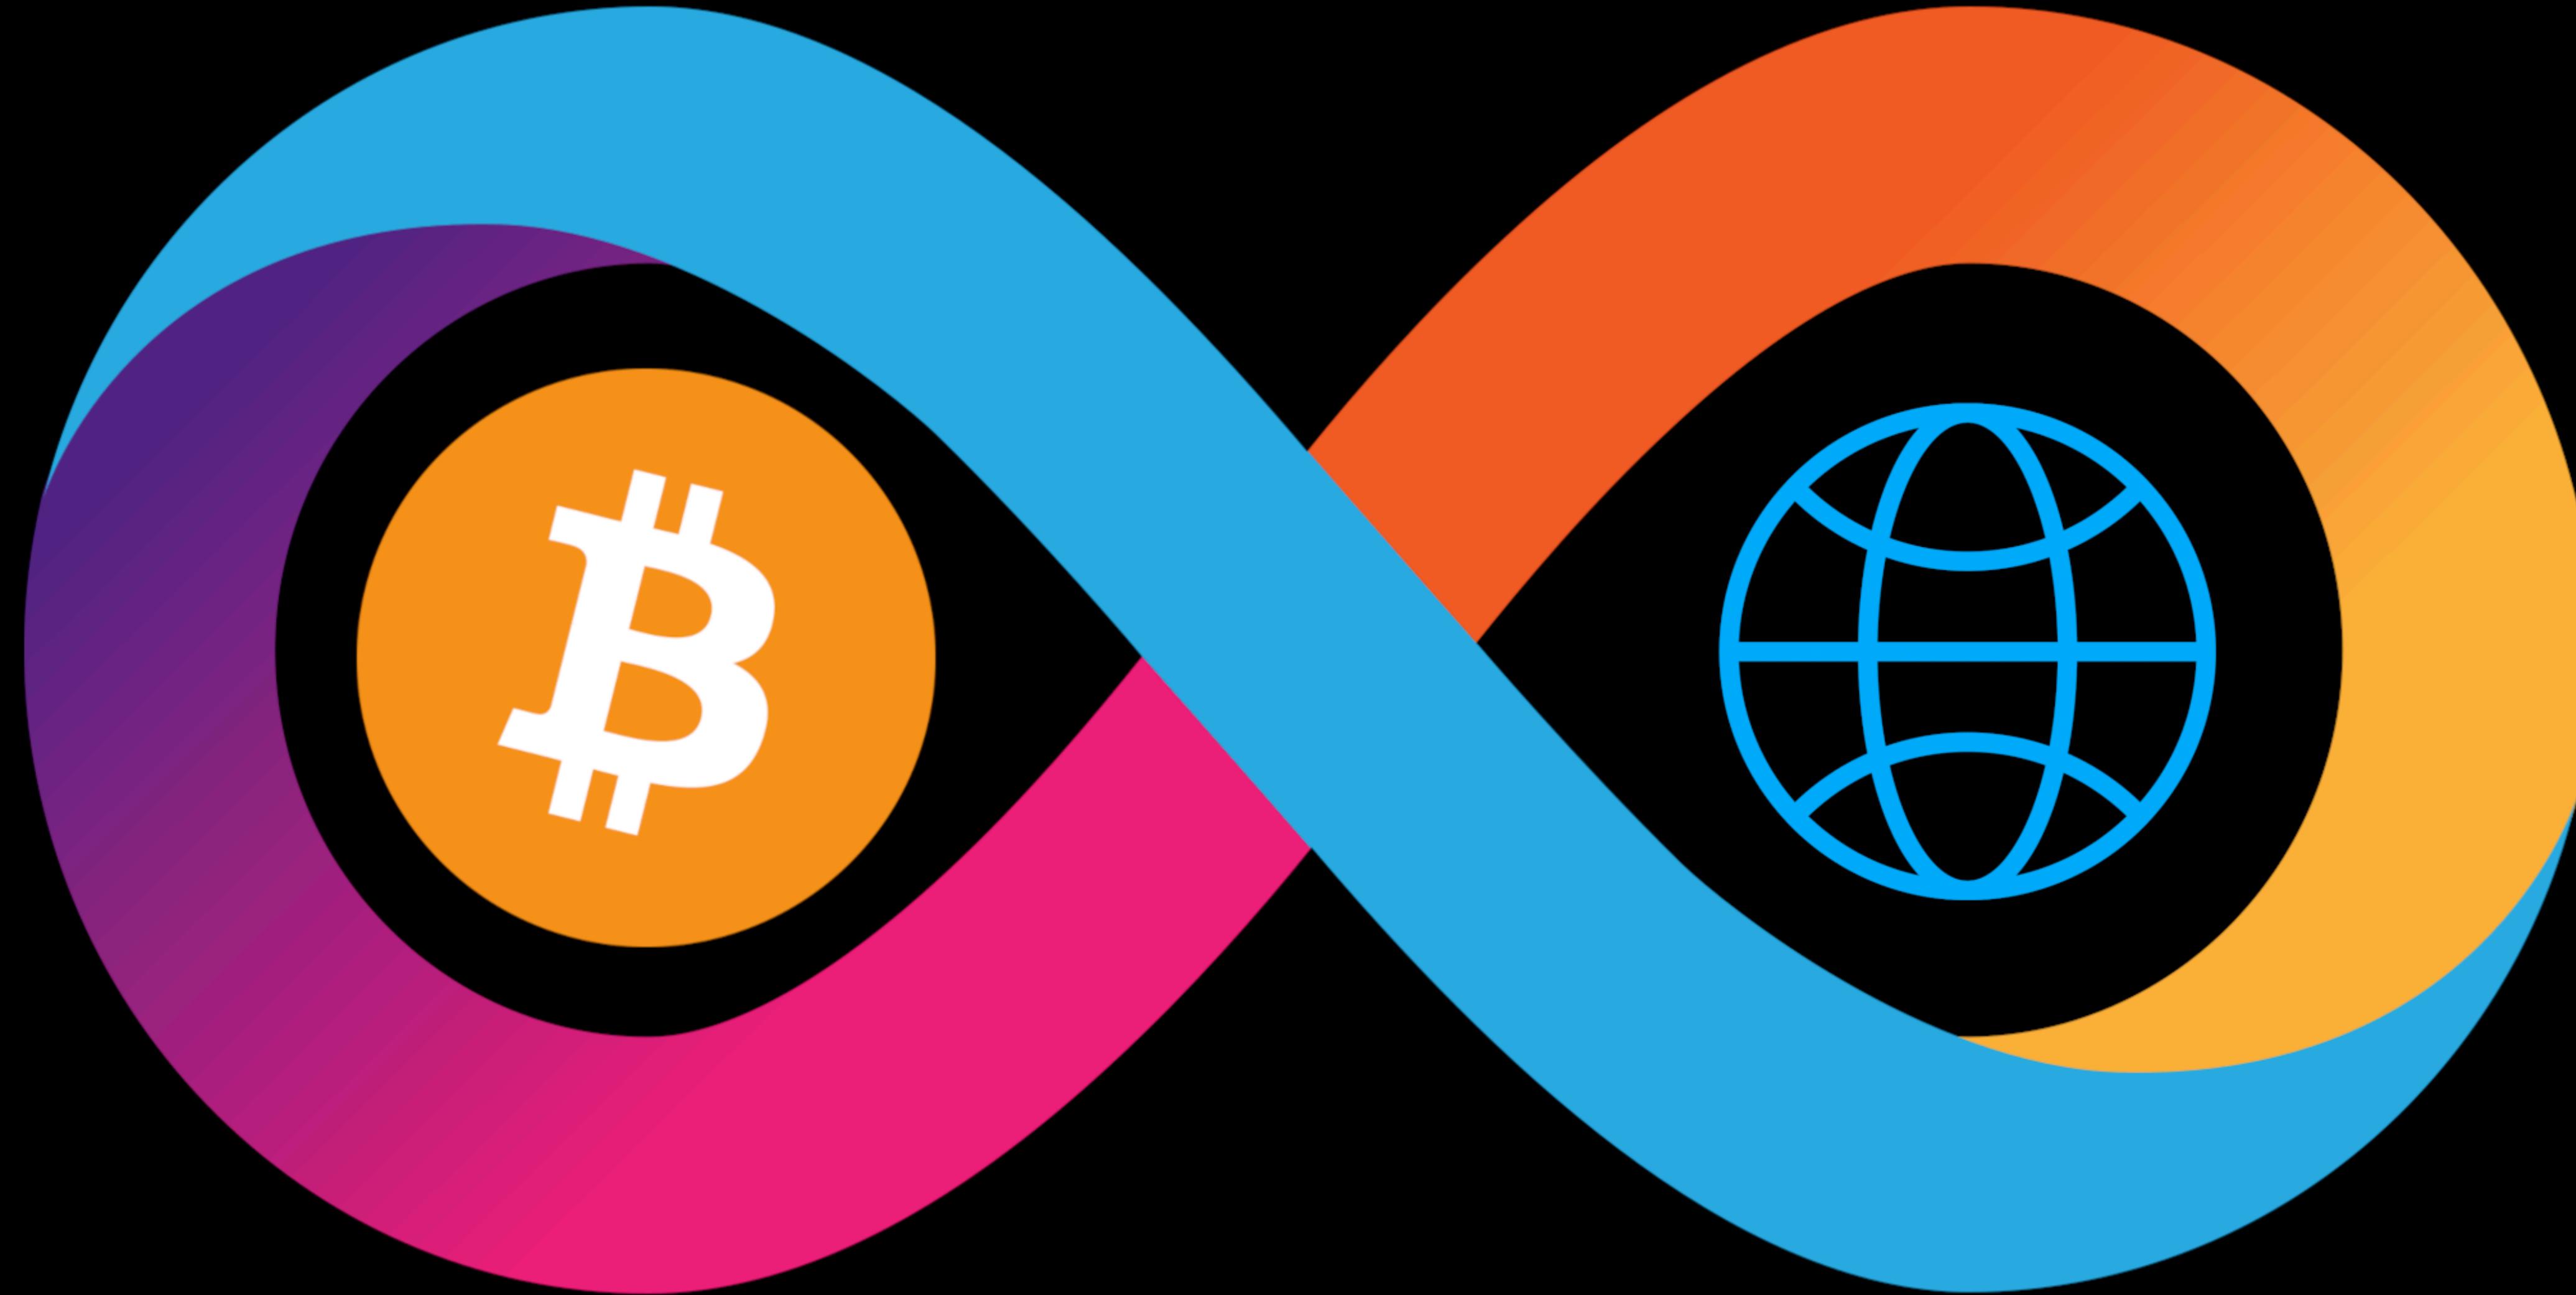

"Building global software."
Eerik Potter

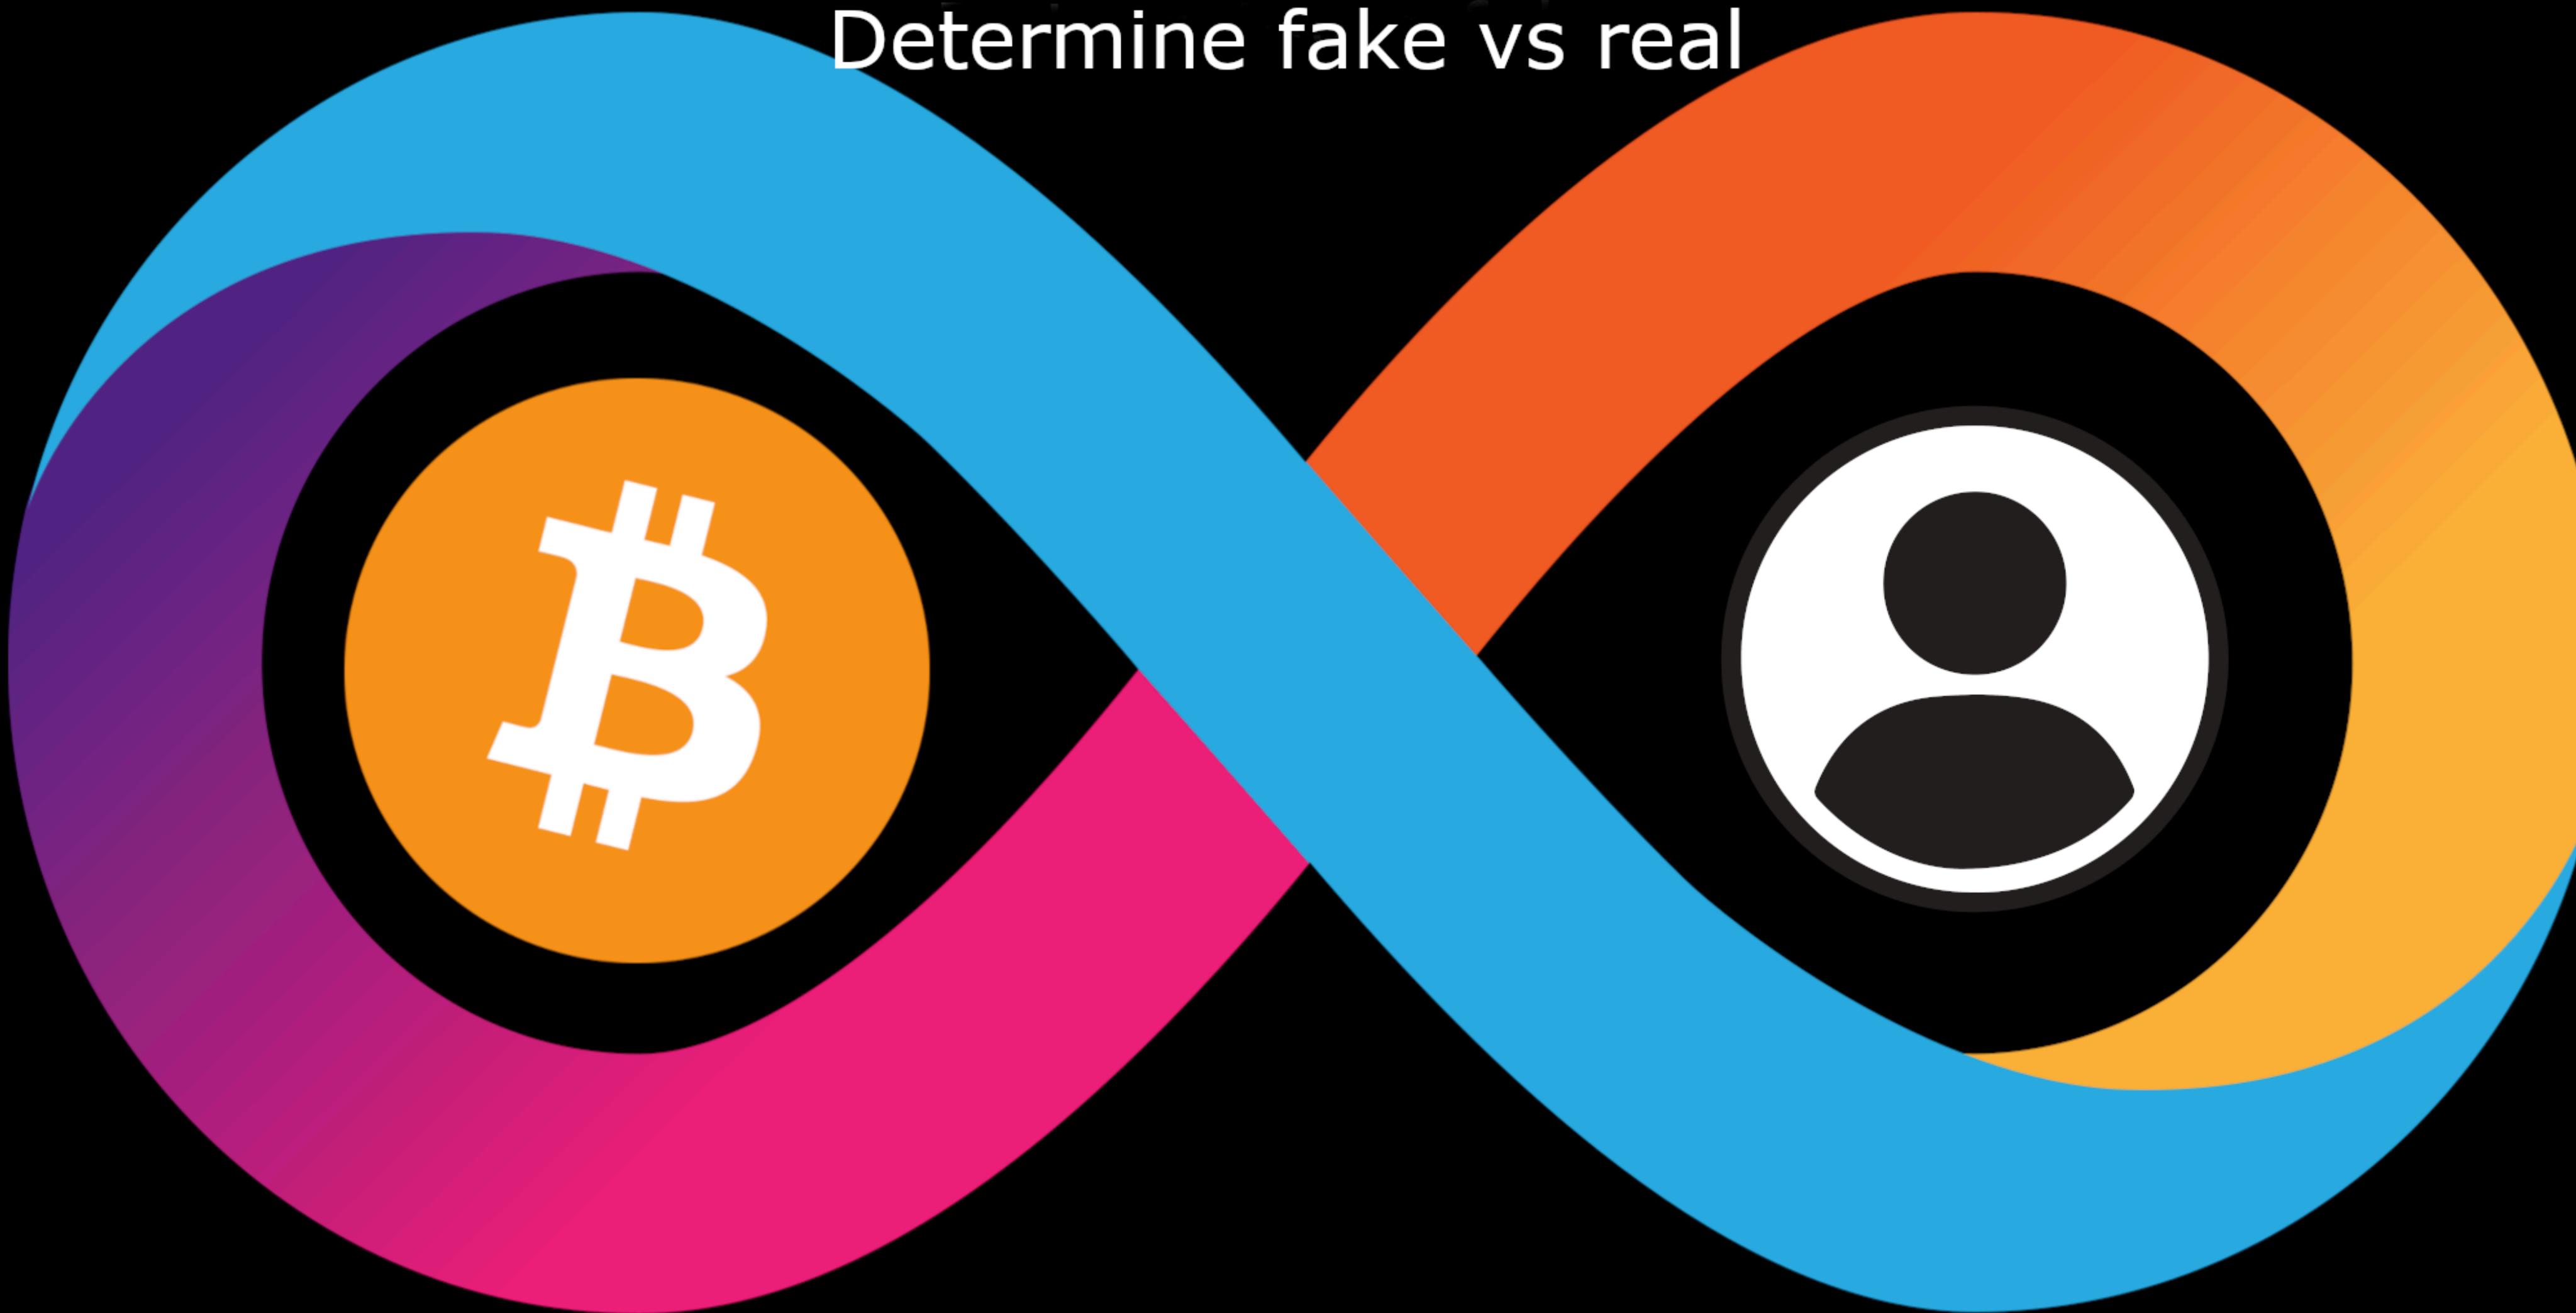

A 3 minute  collage of the
MONUMENTAL value proposition of ICP for all

Sovereign platform for global full-stack software

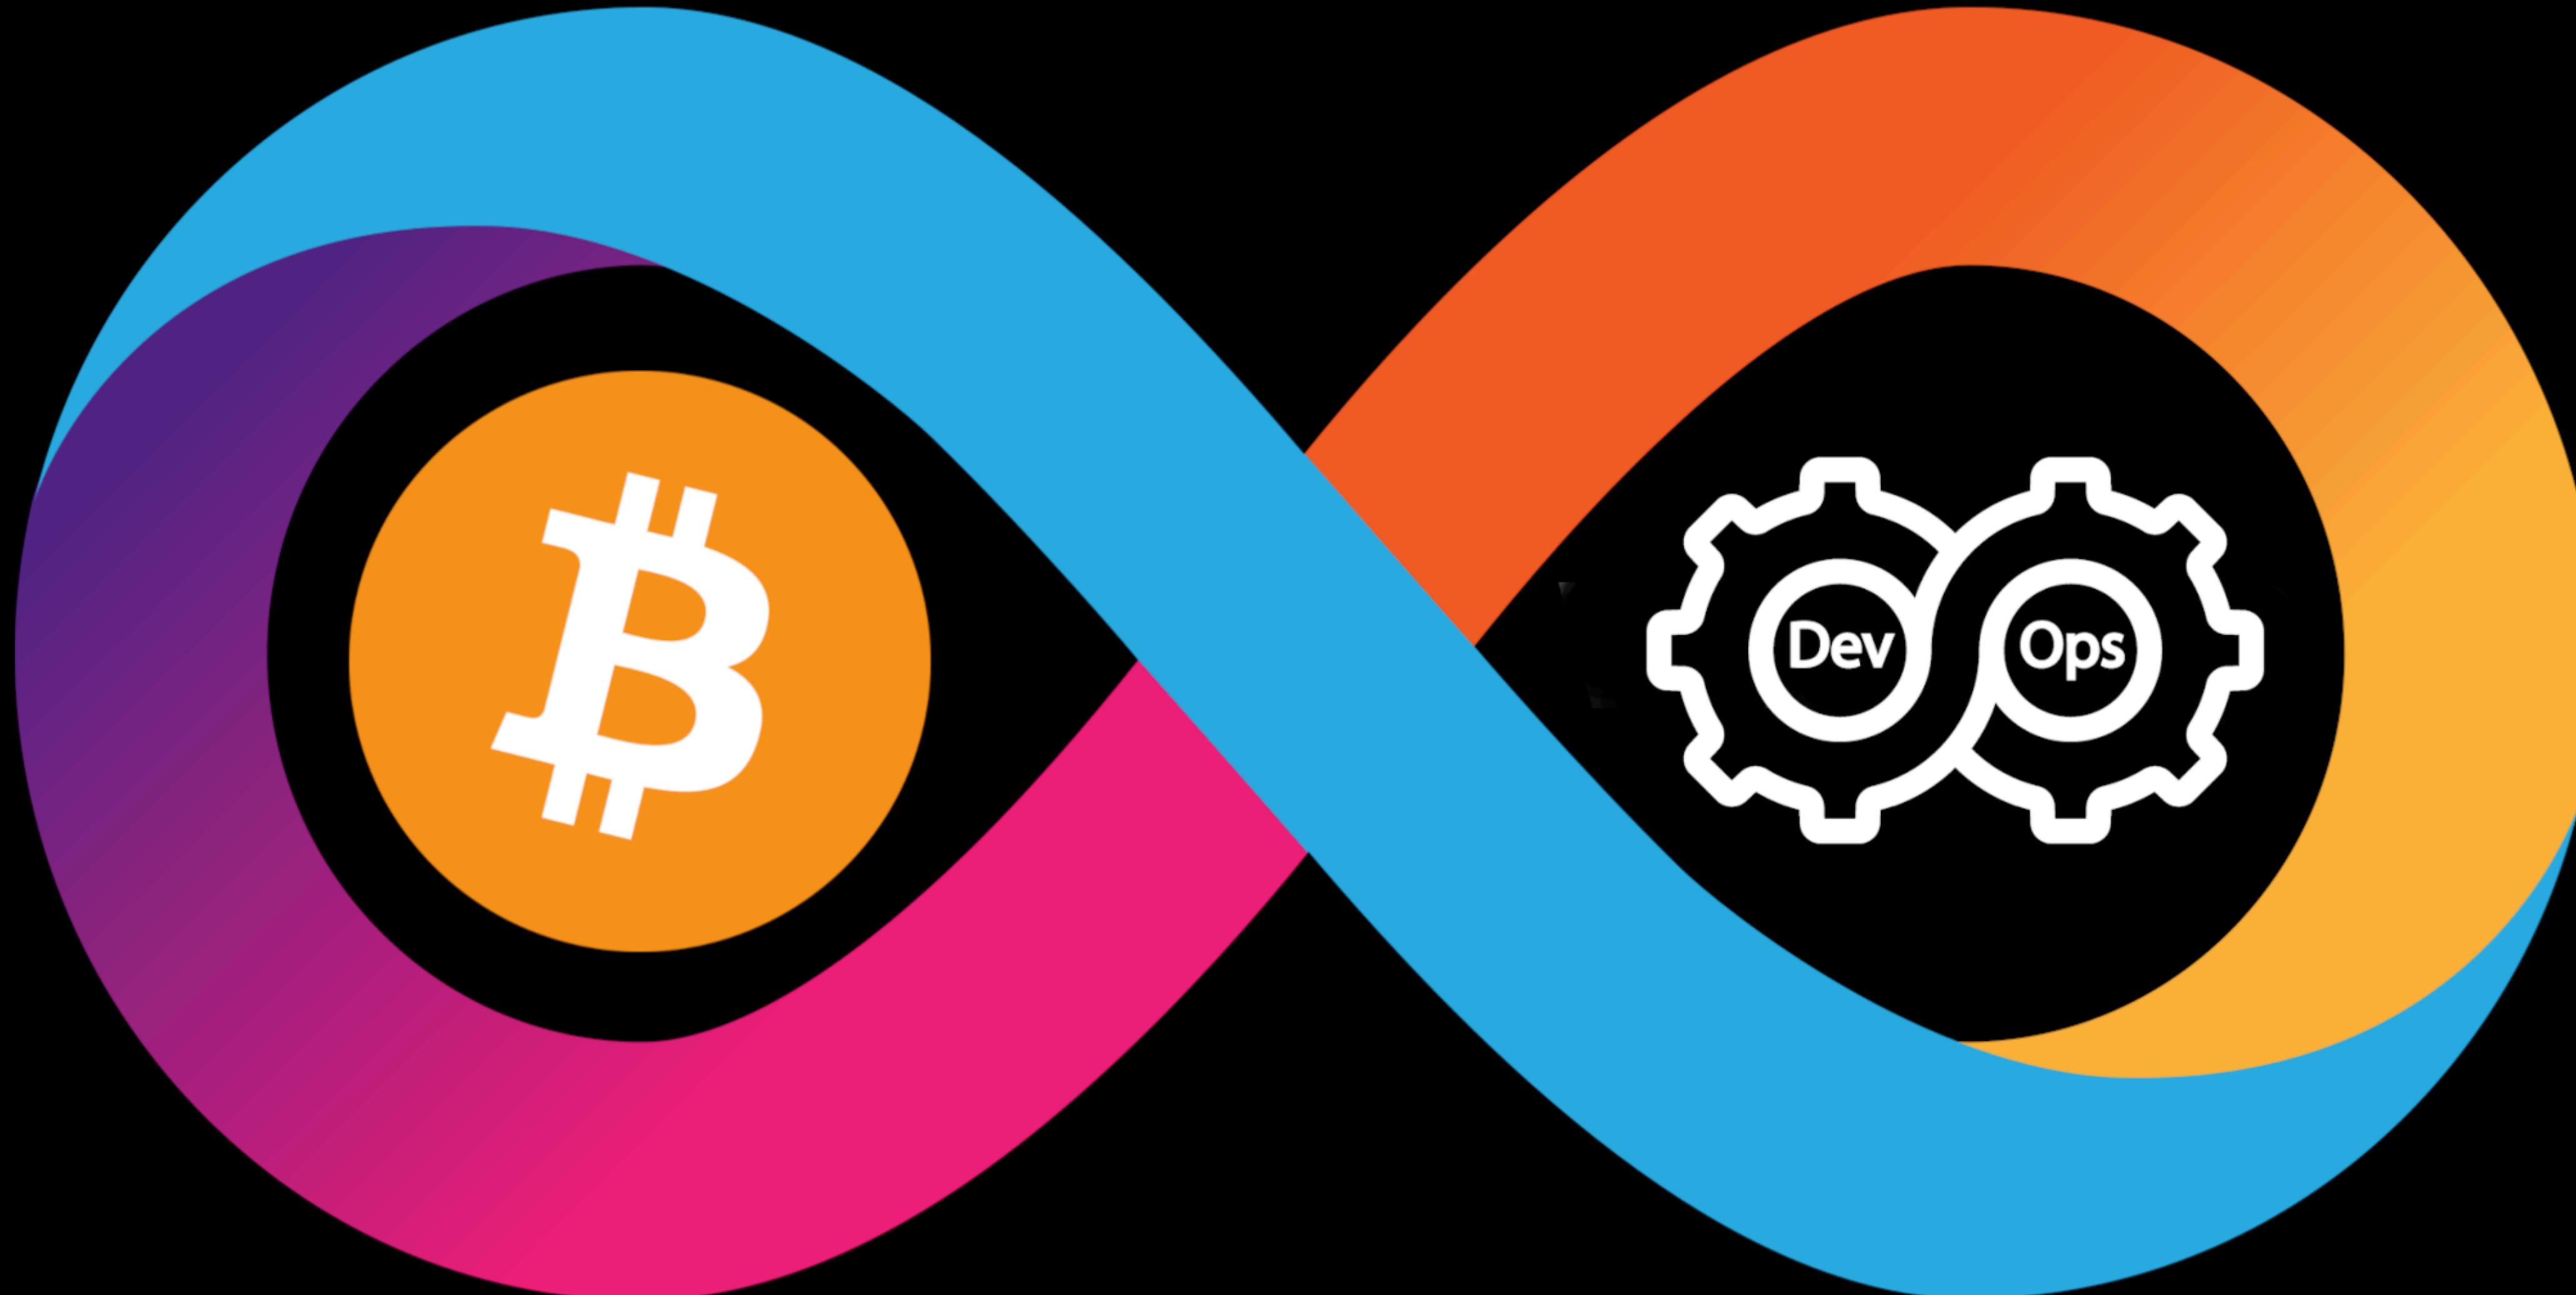

Unifying the Internet (web2 + web3), enabling the web3.0 experience

End-to-end ownership of data and intellectual property
Verifiable user experience
Determine fake vs real

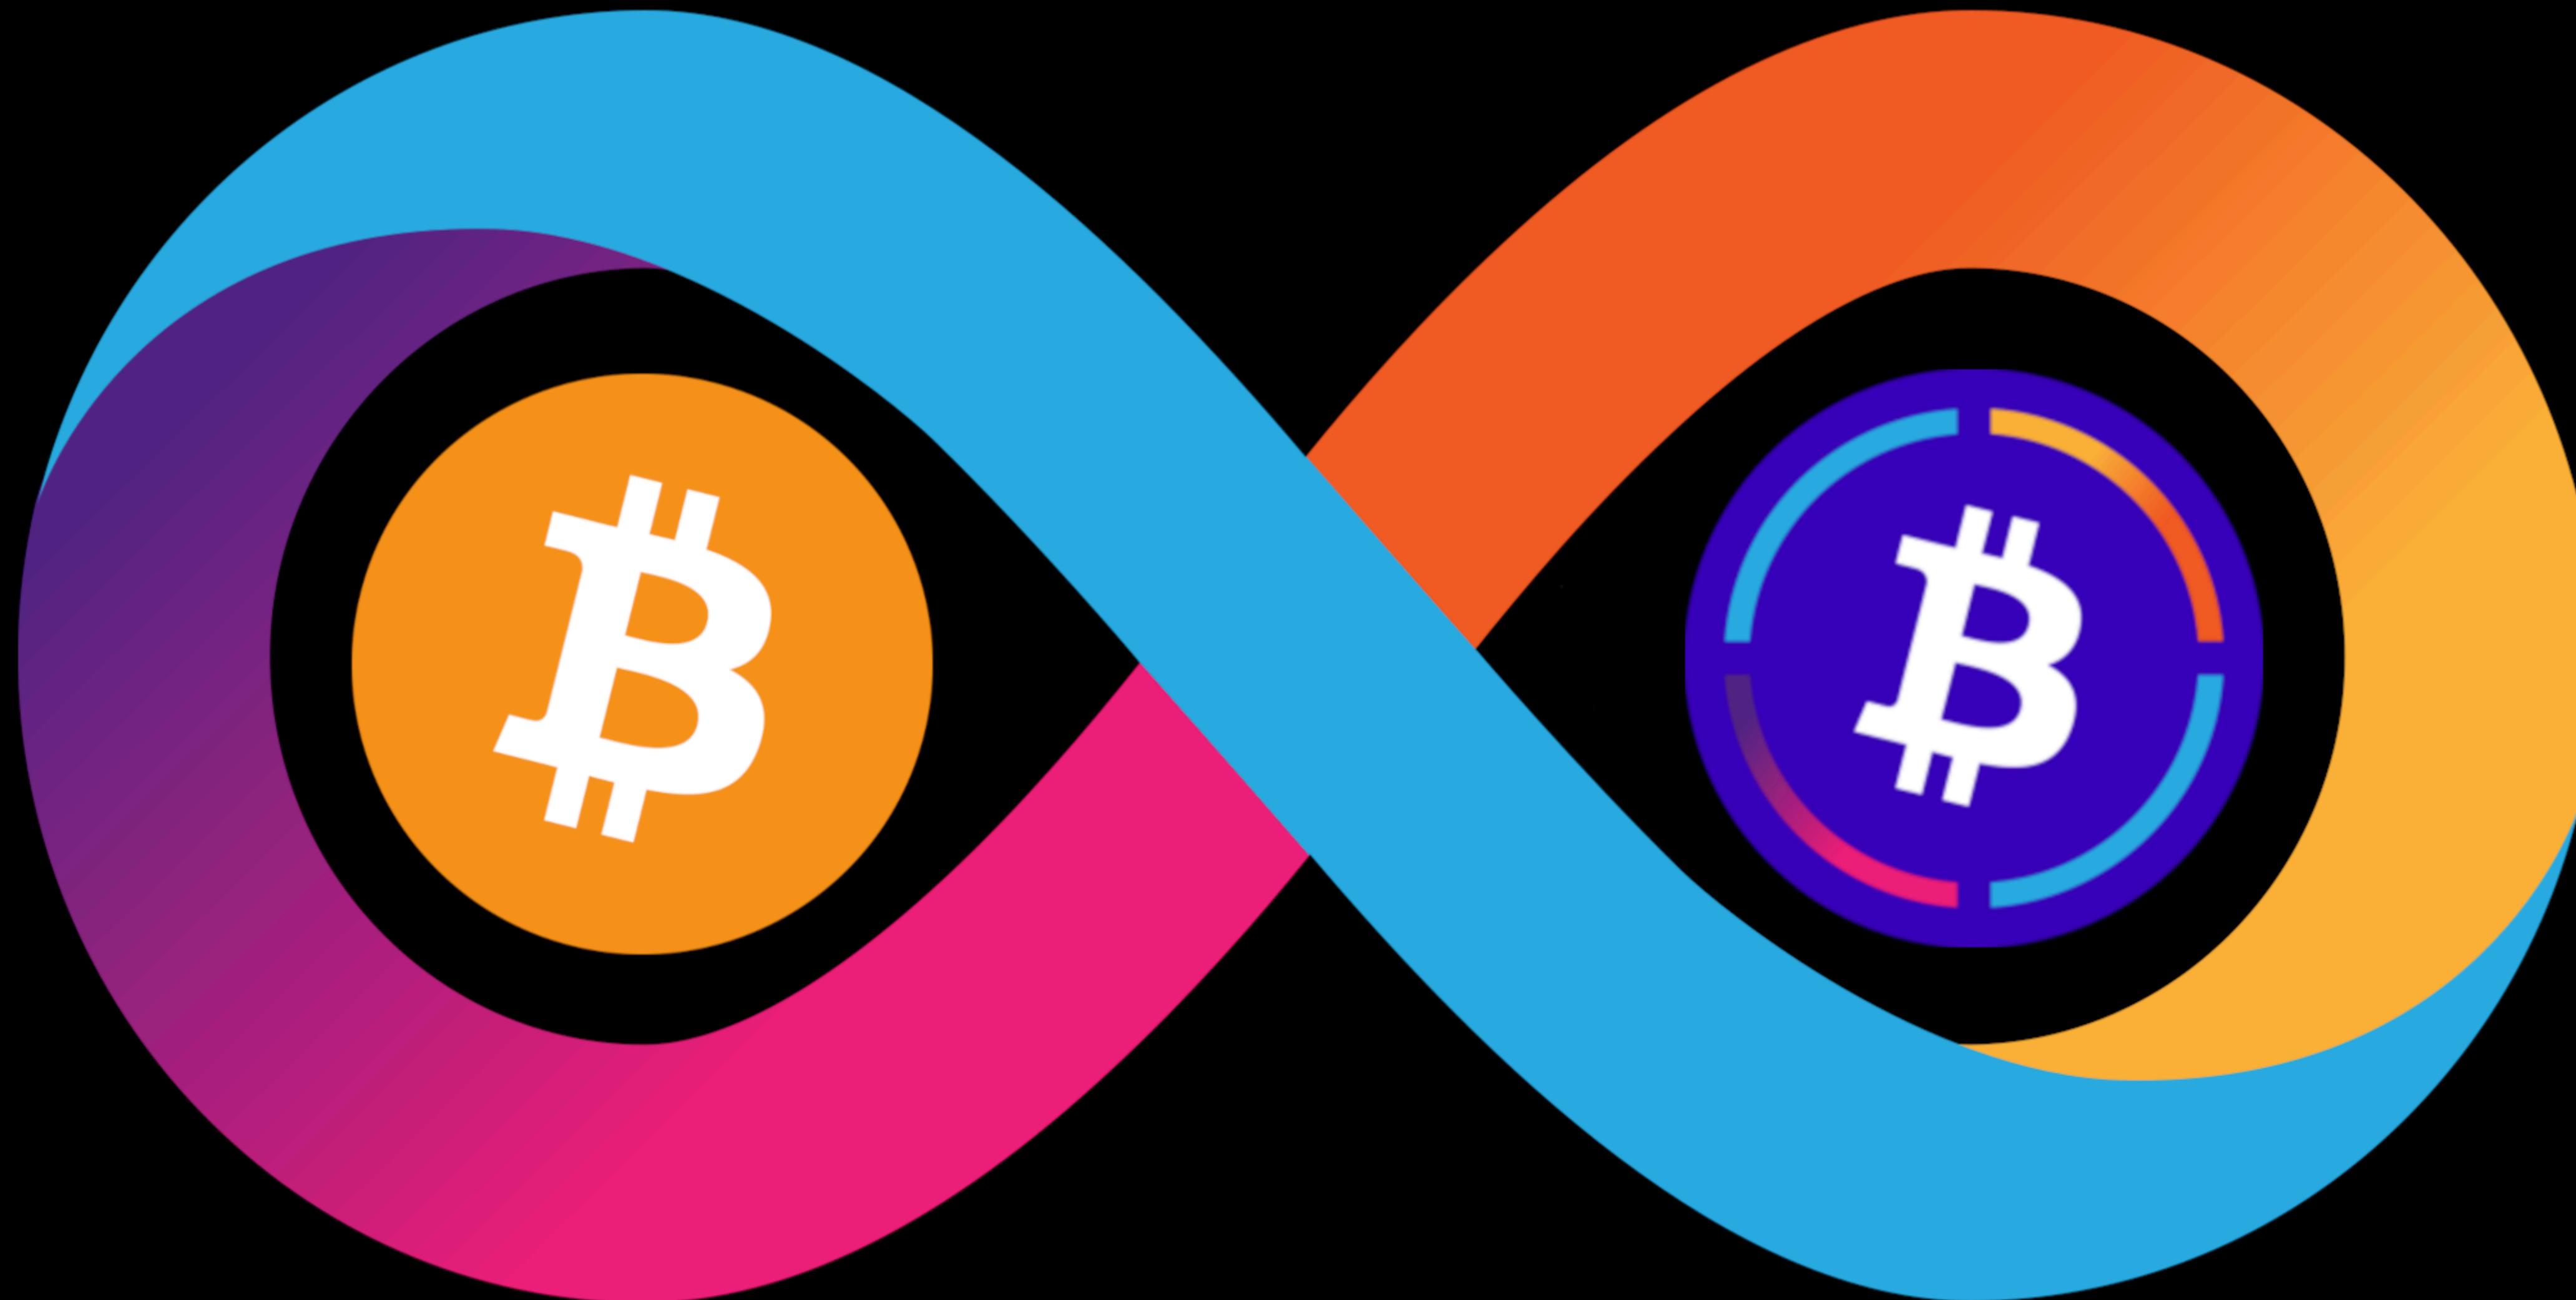

End-user freedom, creator economy

Full ownership of code and state
tamperproof, unstoppable, serverless, stateful

Common traditional/ cloud software challenges solved
at the unified cloud protocol layer. Next-gen security.

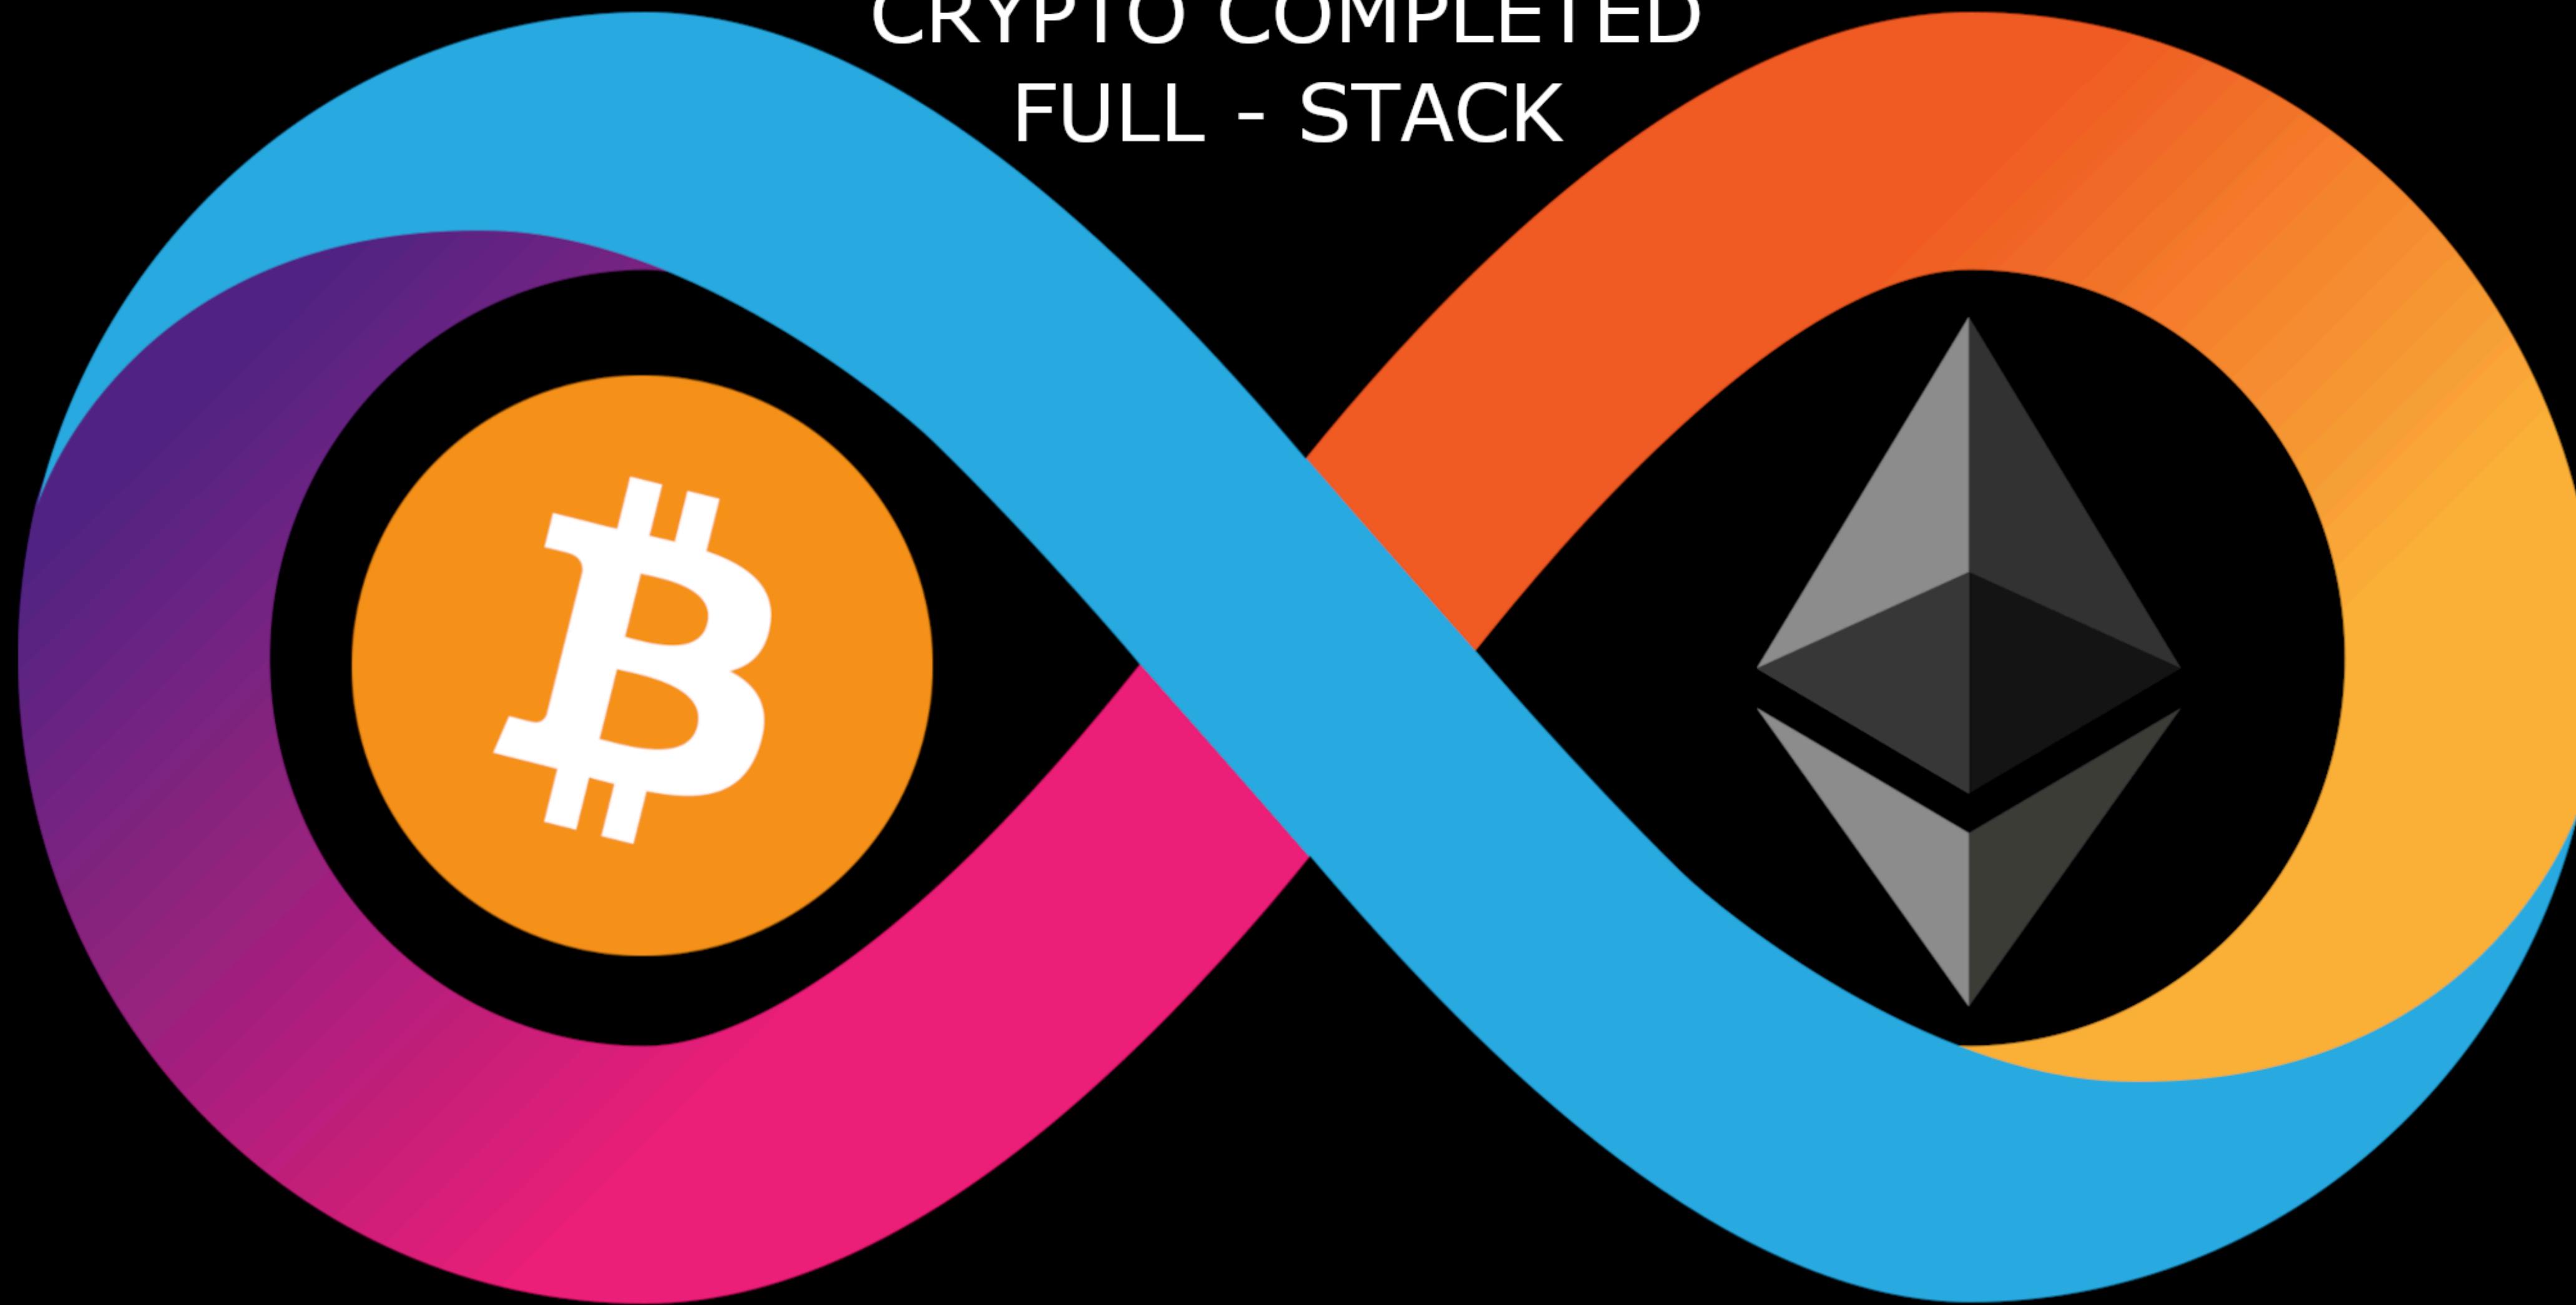

Sovereign Bitcoin infrastructure

Freedom Money within Open Internet

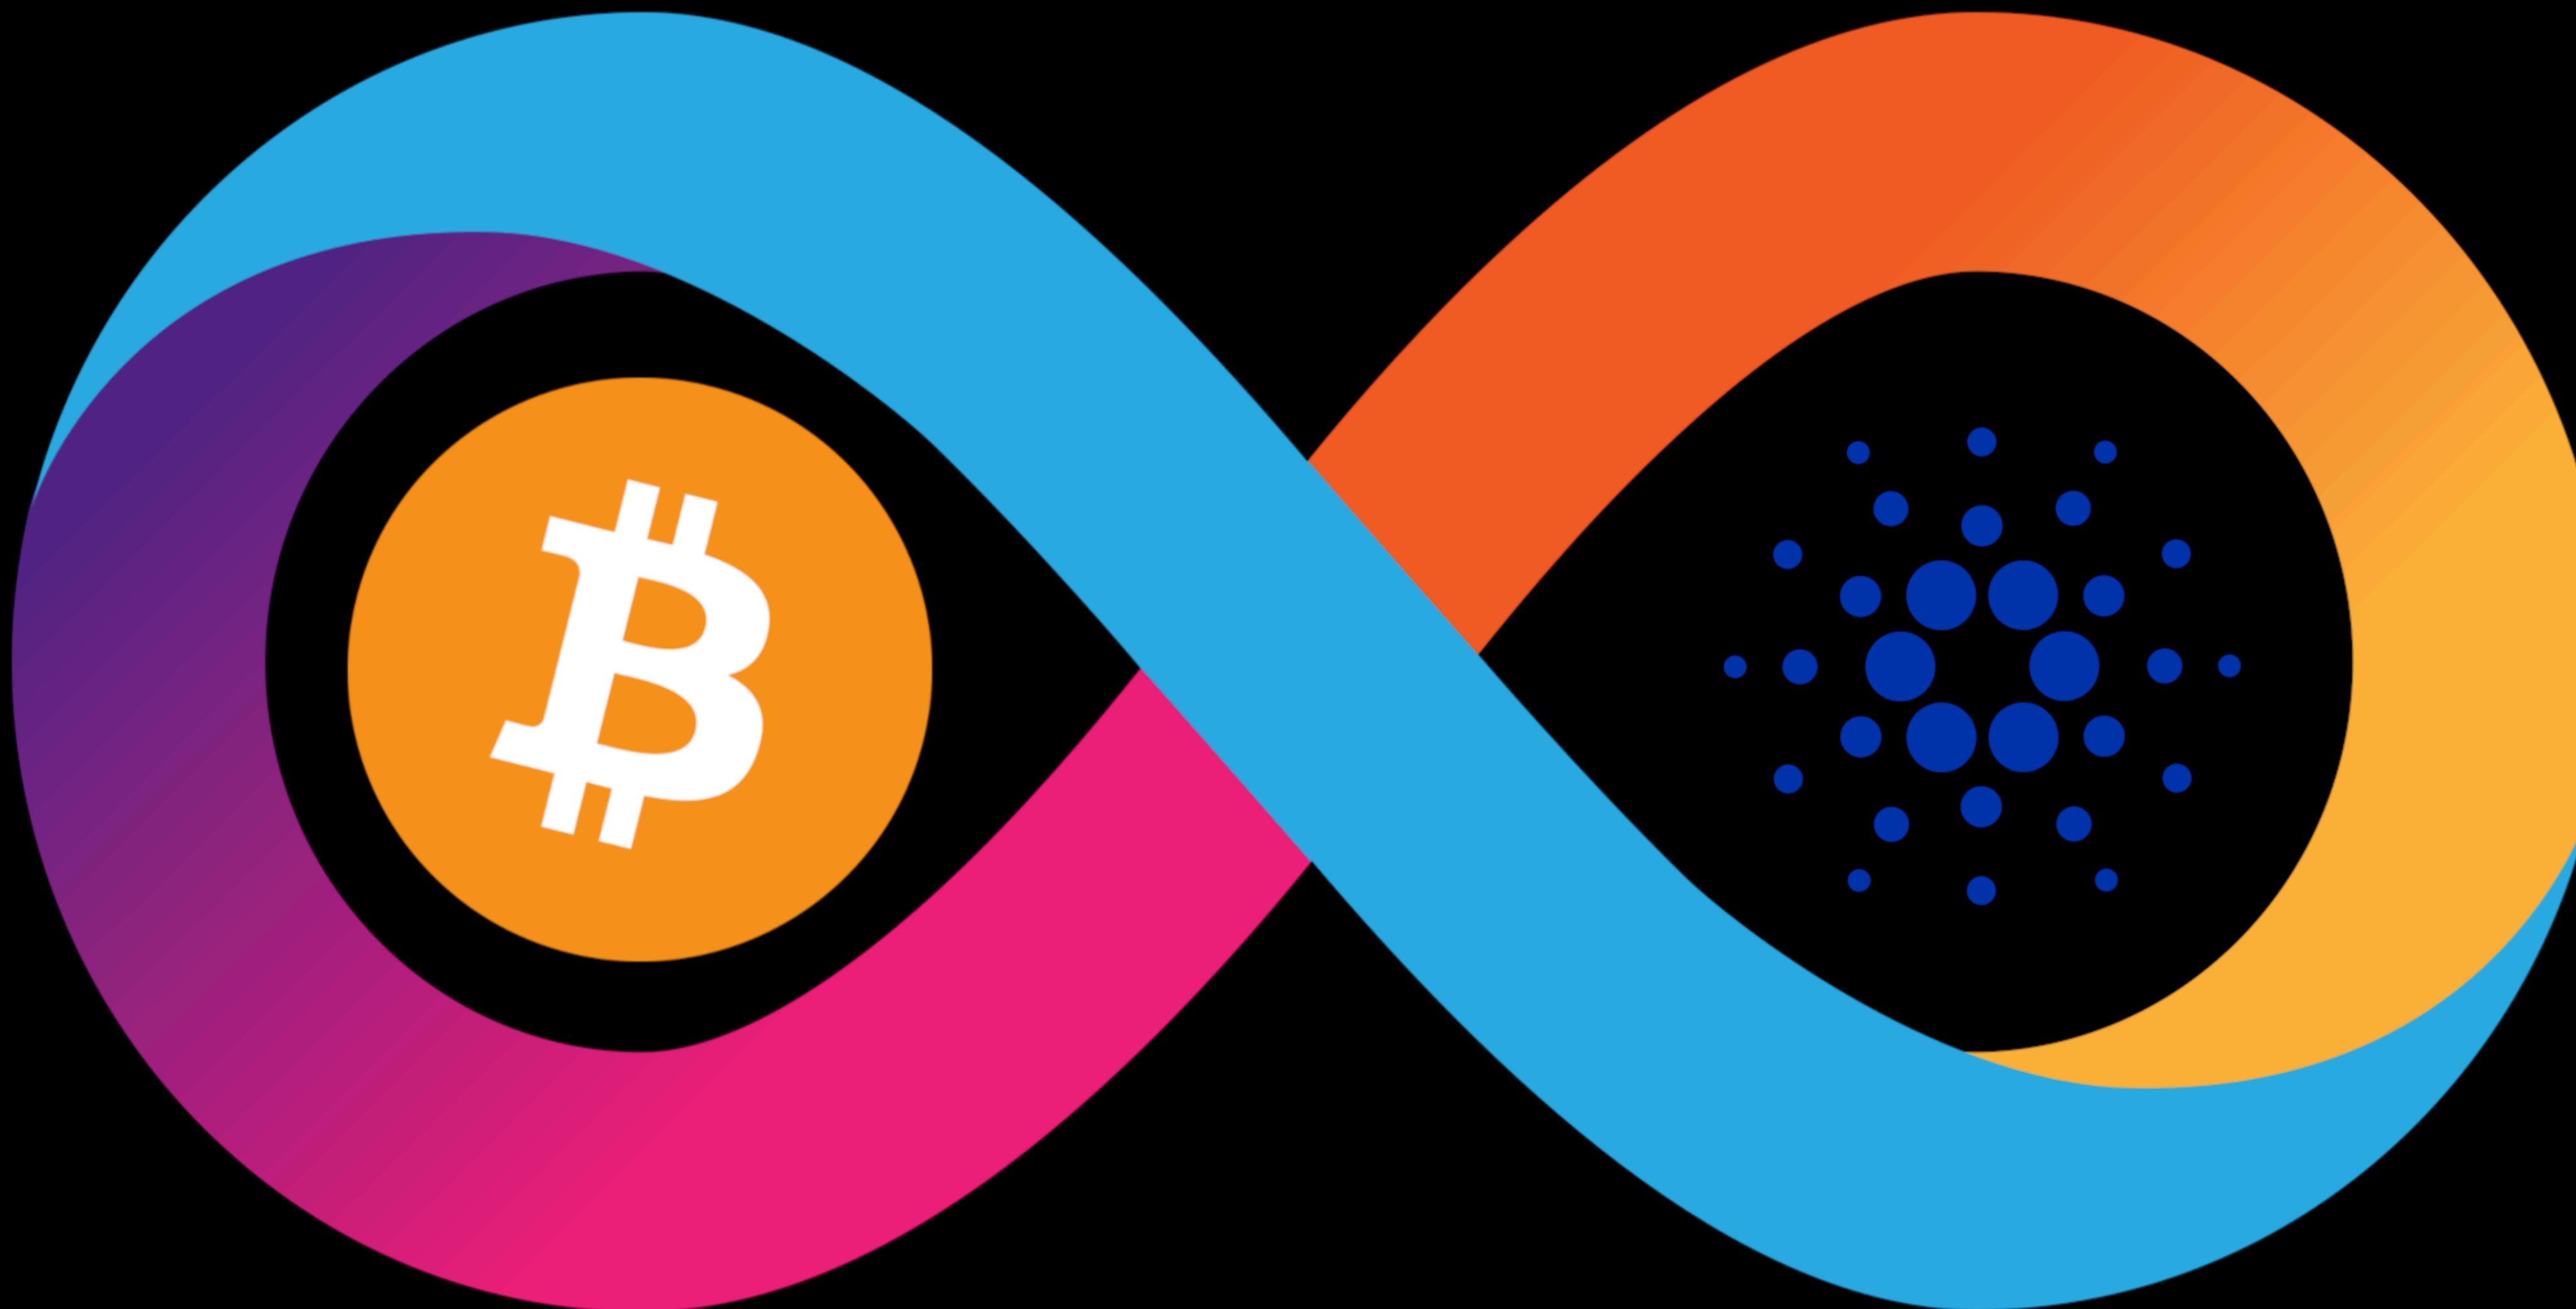

THE BIG THREE

CRYPTO COMPLETED
FULL - STACK

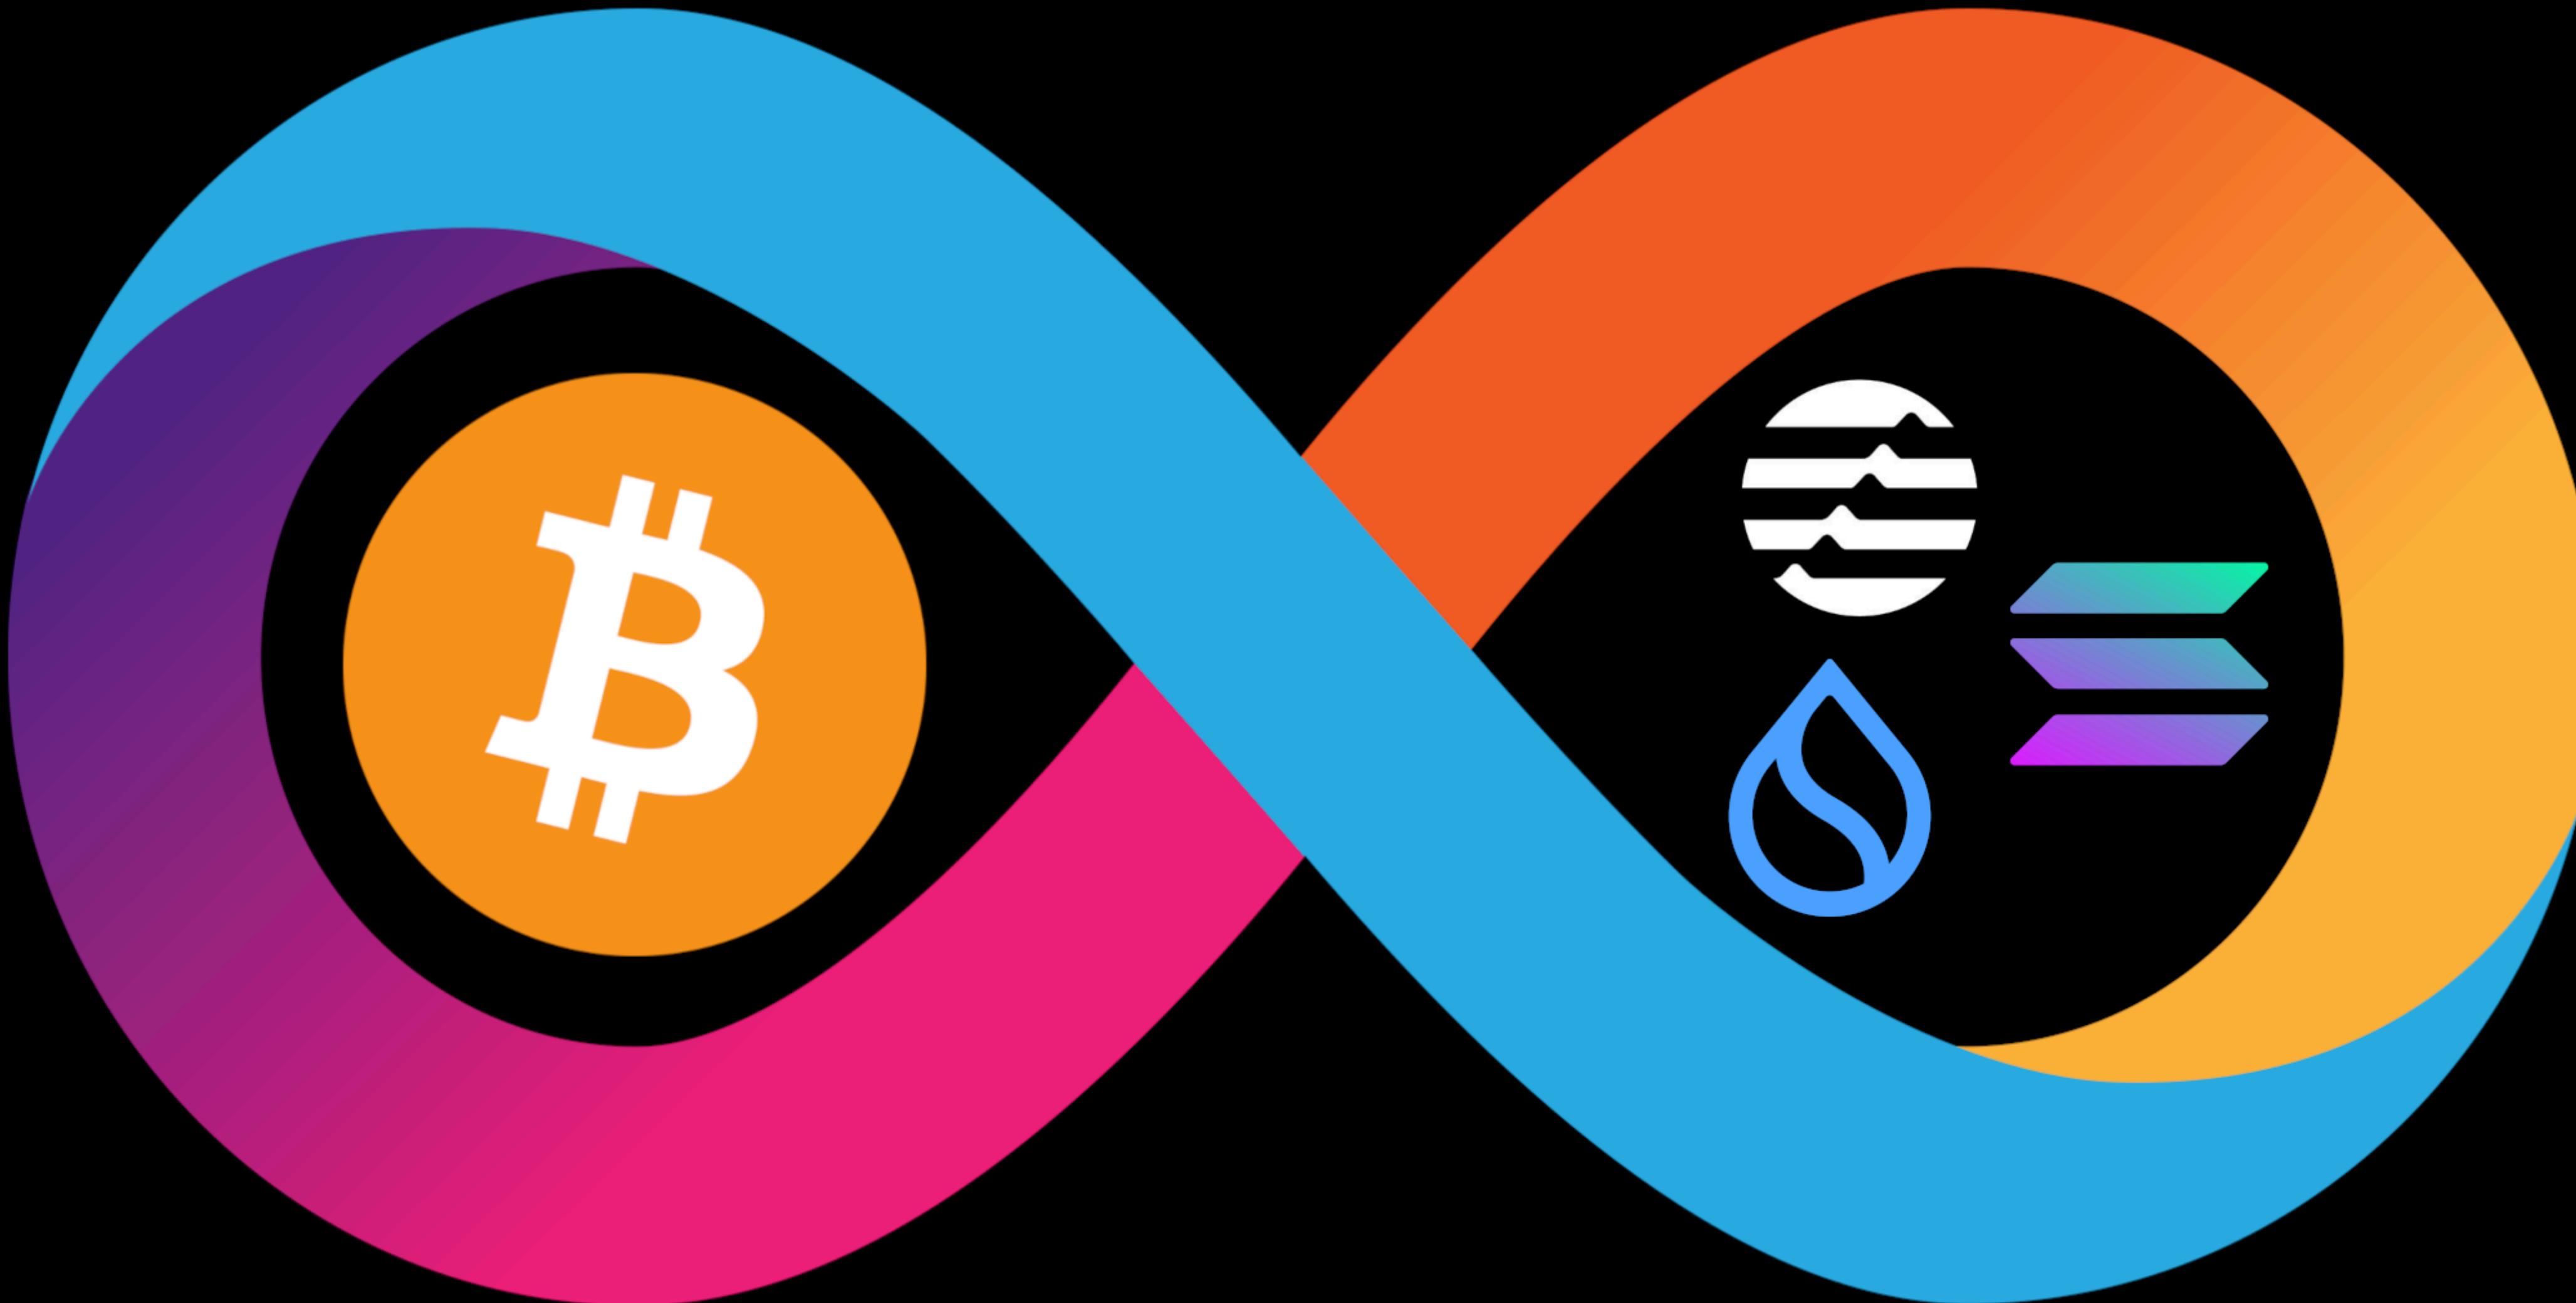

Gen1 PoW, Gen2 smart contracts,
Gen3 full-stack sovereign software platform/ crypto+cloud

TRUE "dApps" are all onchain
L1 smart contracts + ICP cloud = e2e onchain software

E2e cryptographically sound software
around global state machines

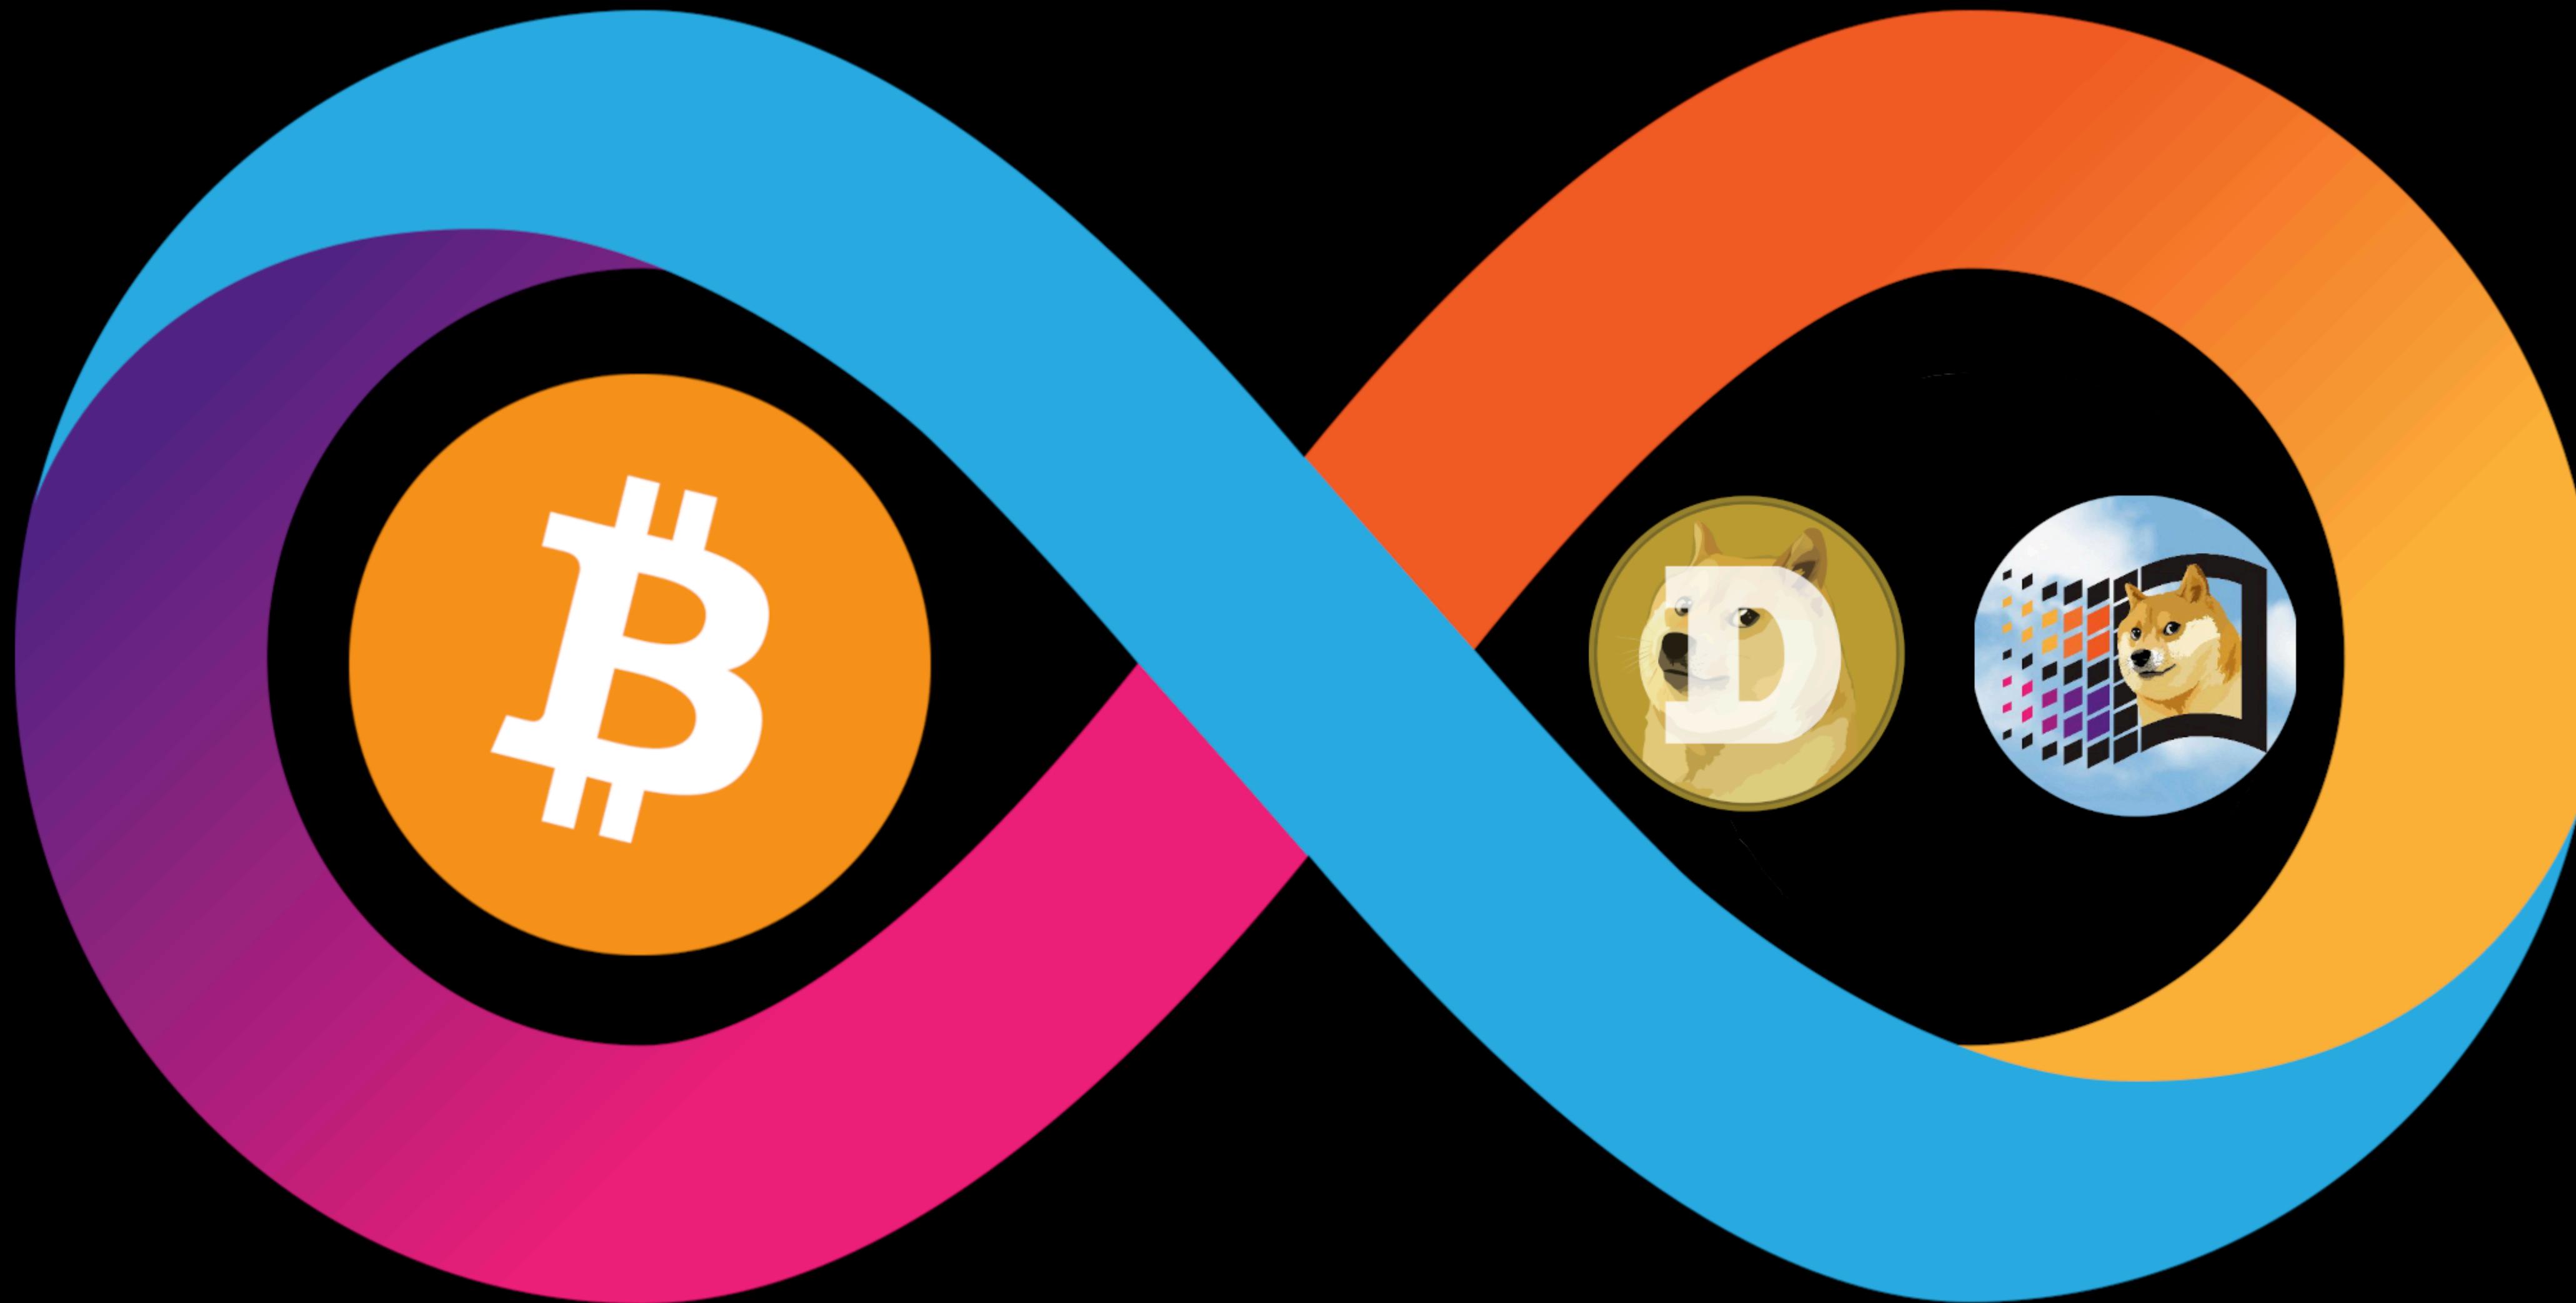

Sovereign full-stack infra for AI components

AGI experience onchain

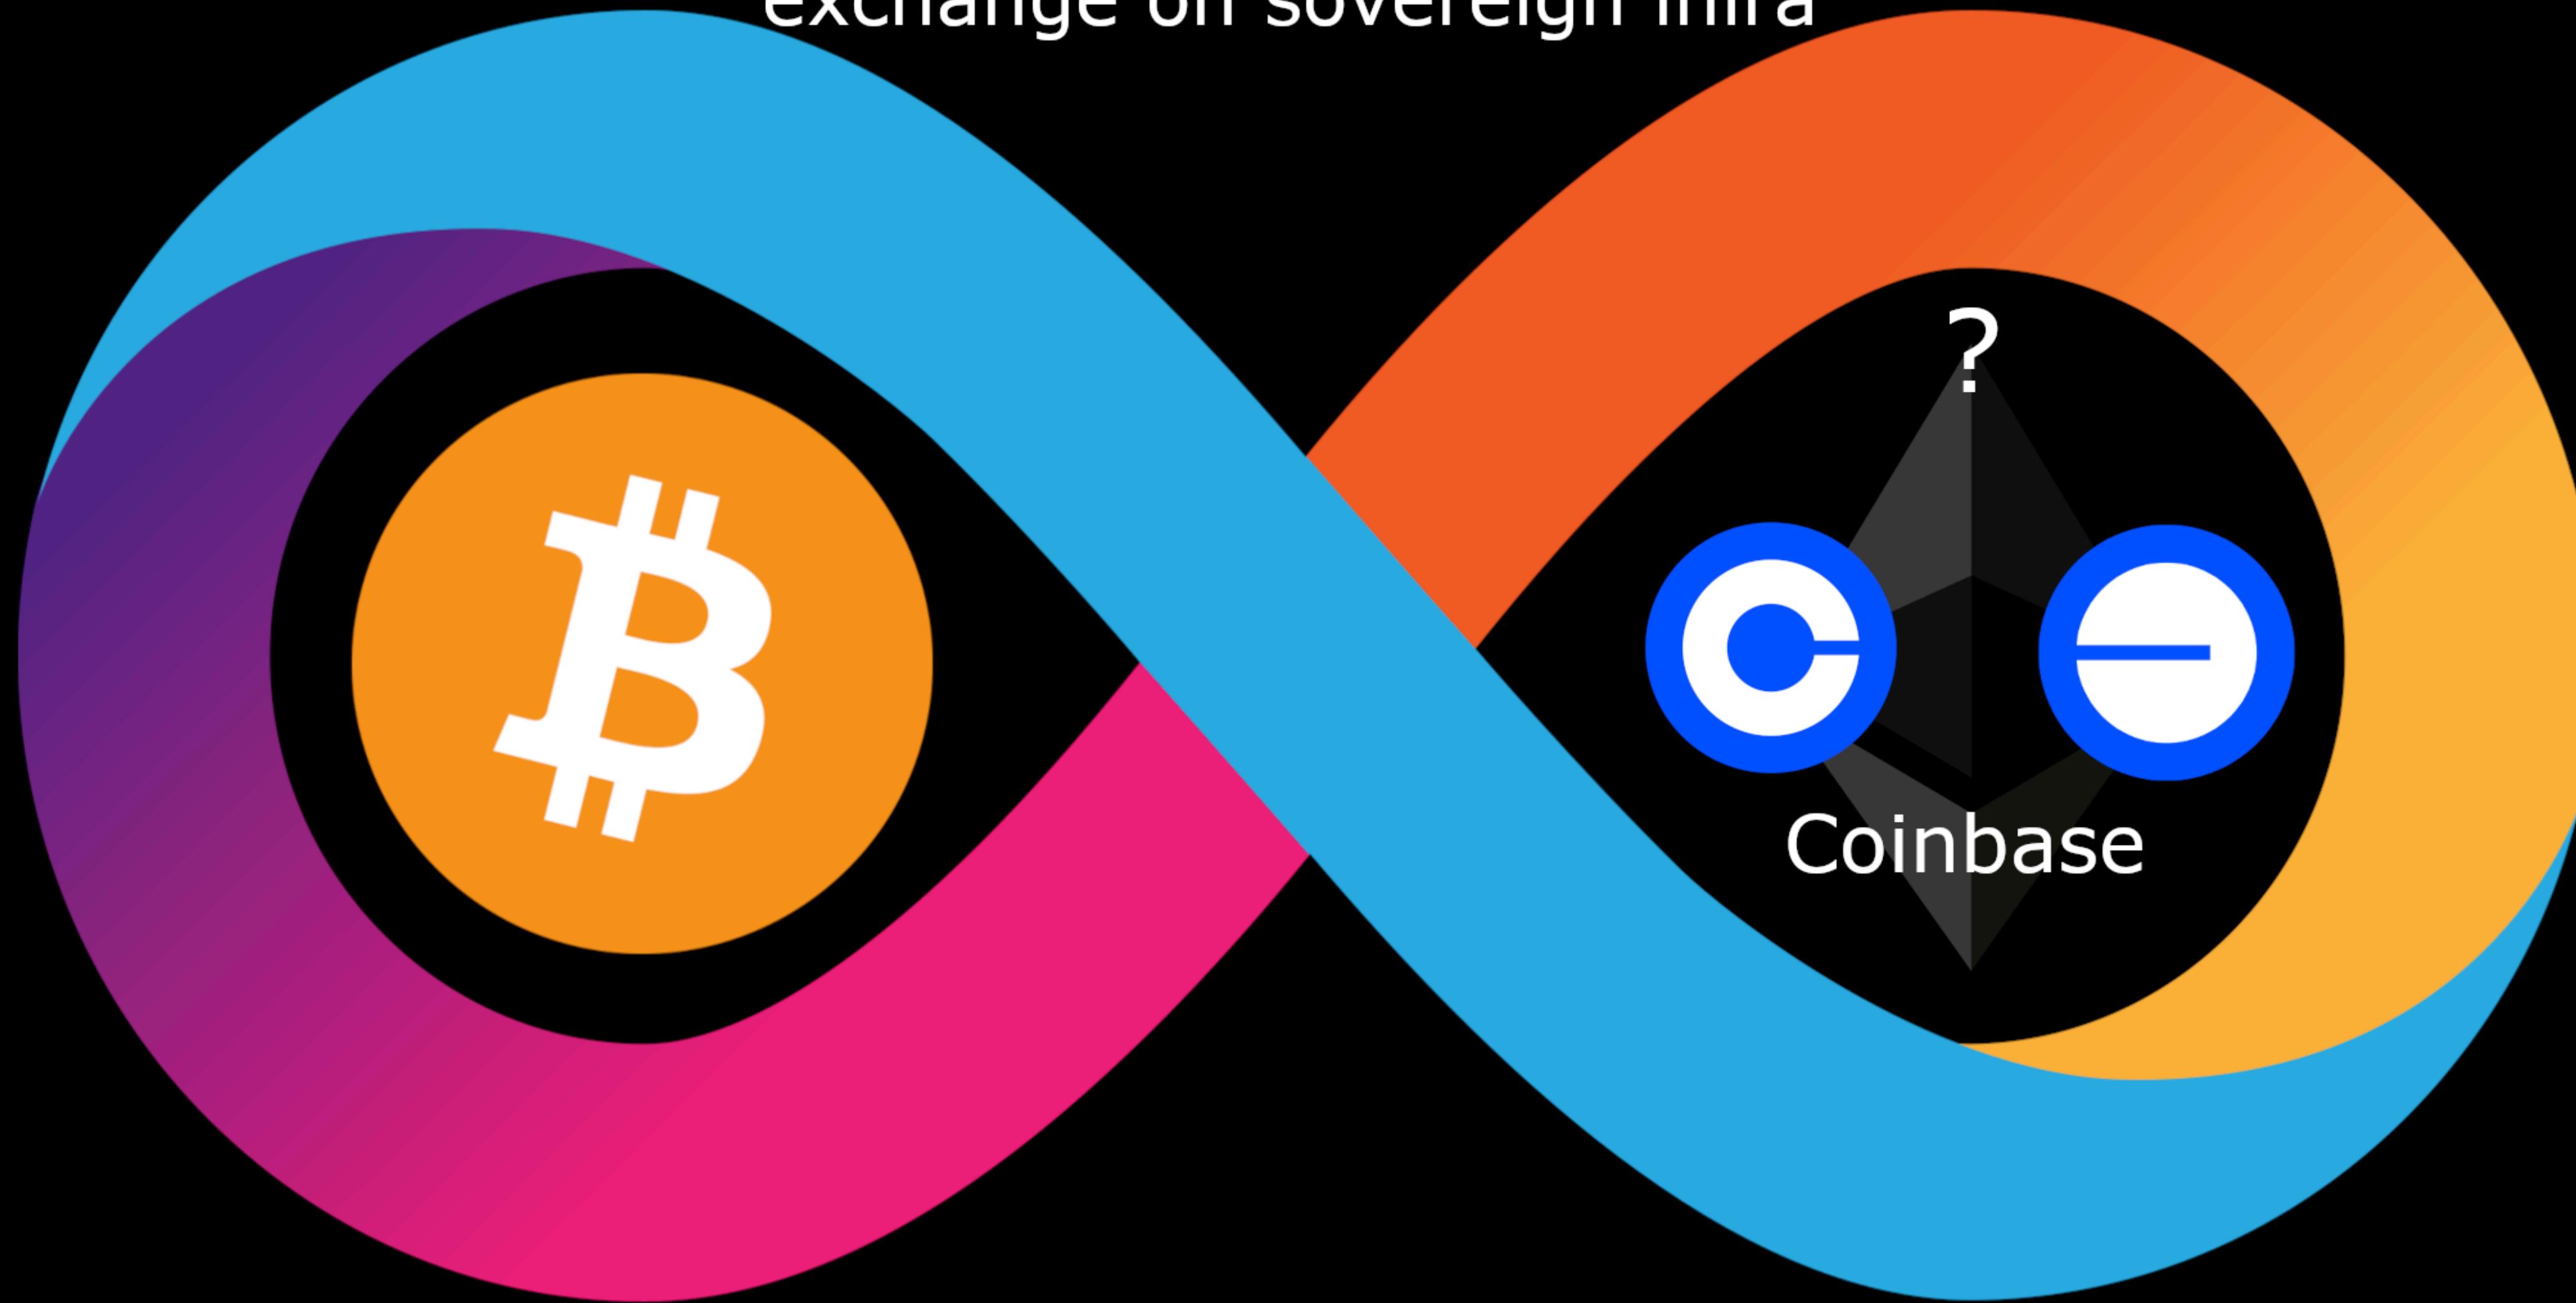

DAO infrastructure all onchain.
Landing pages, unique user experience, NFTs etc.

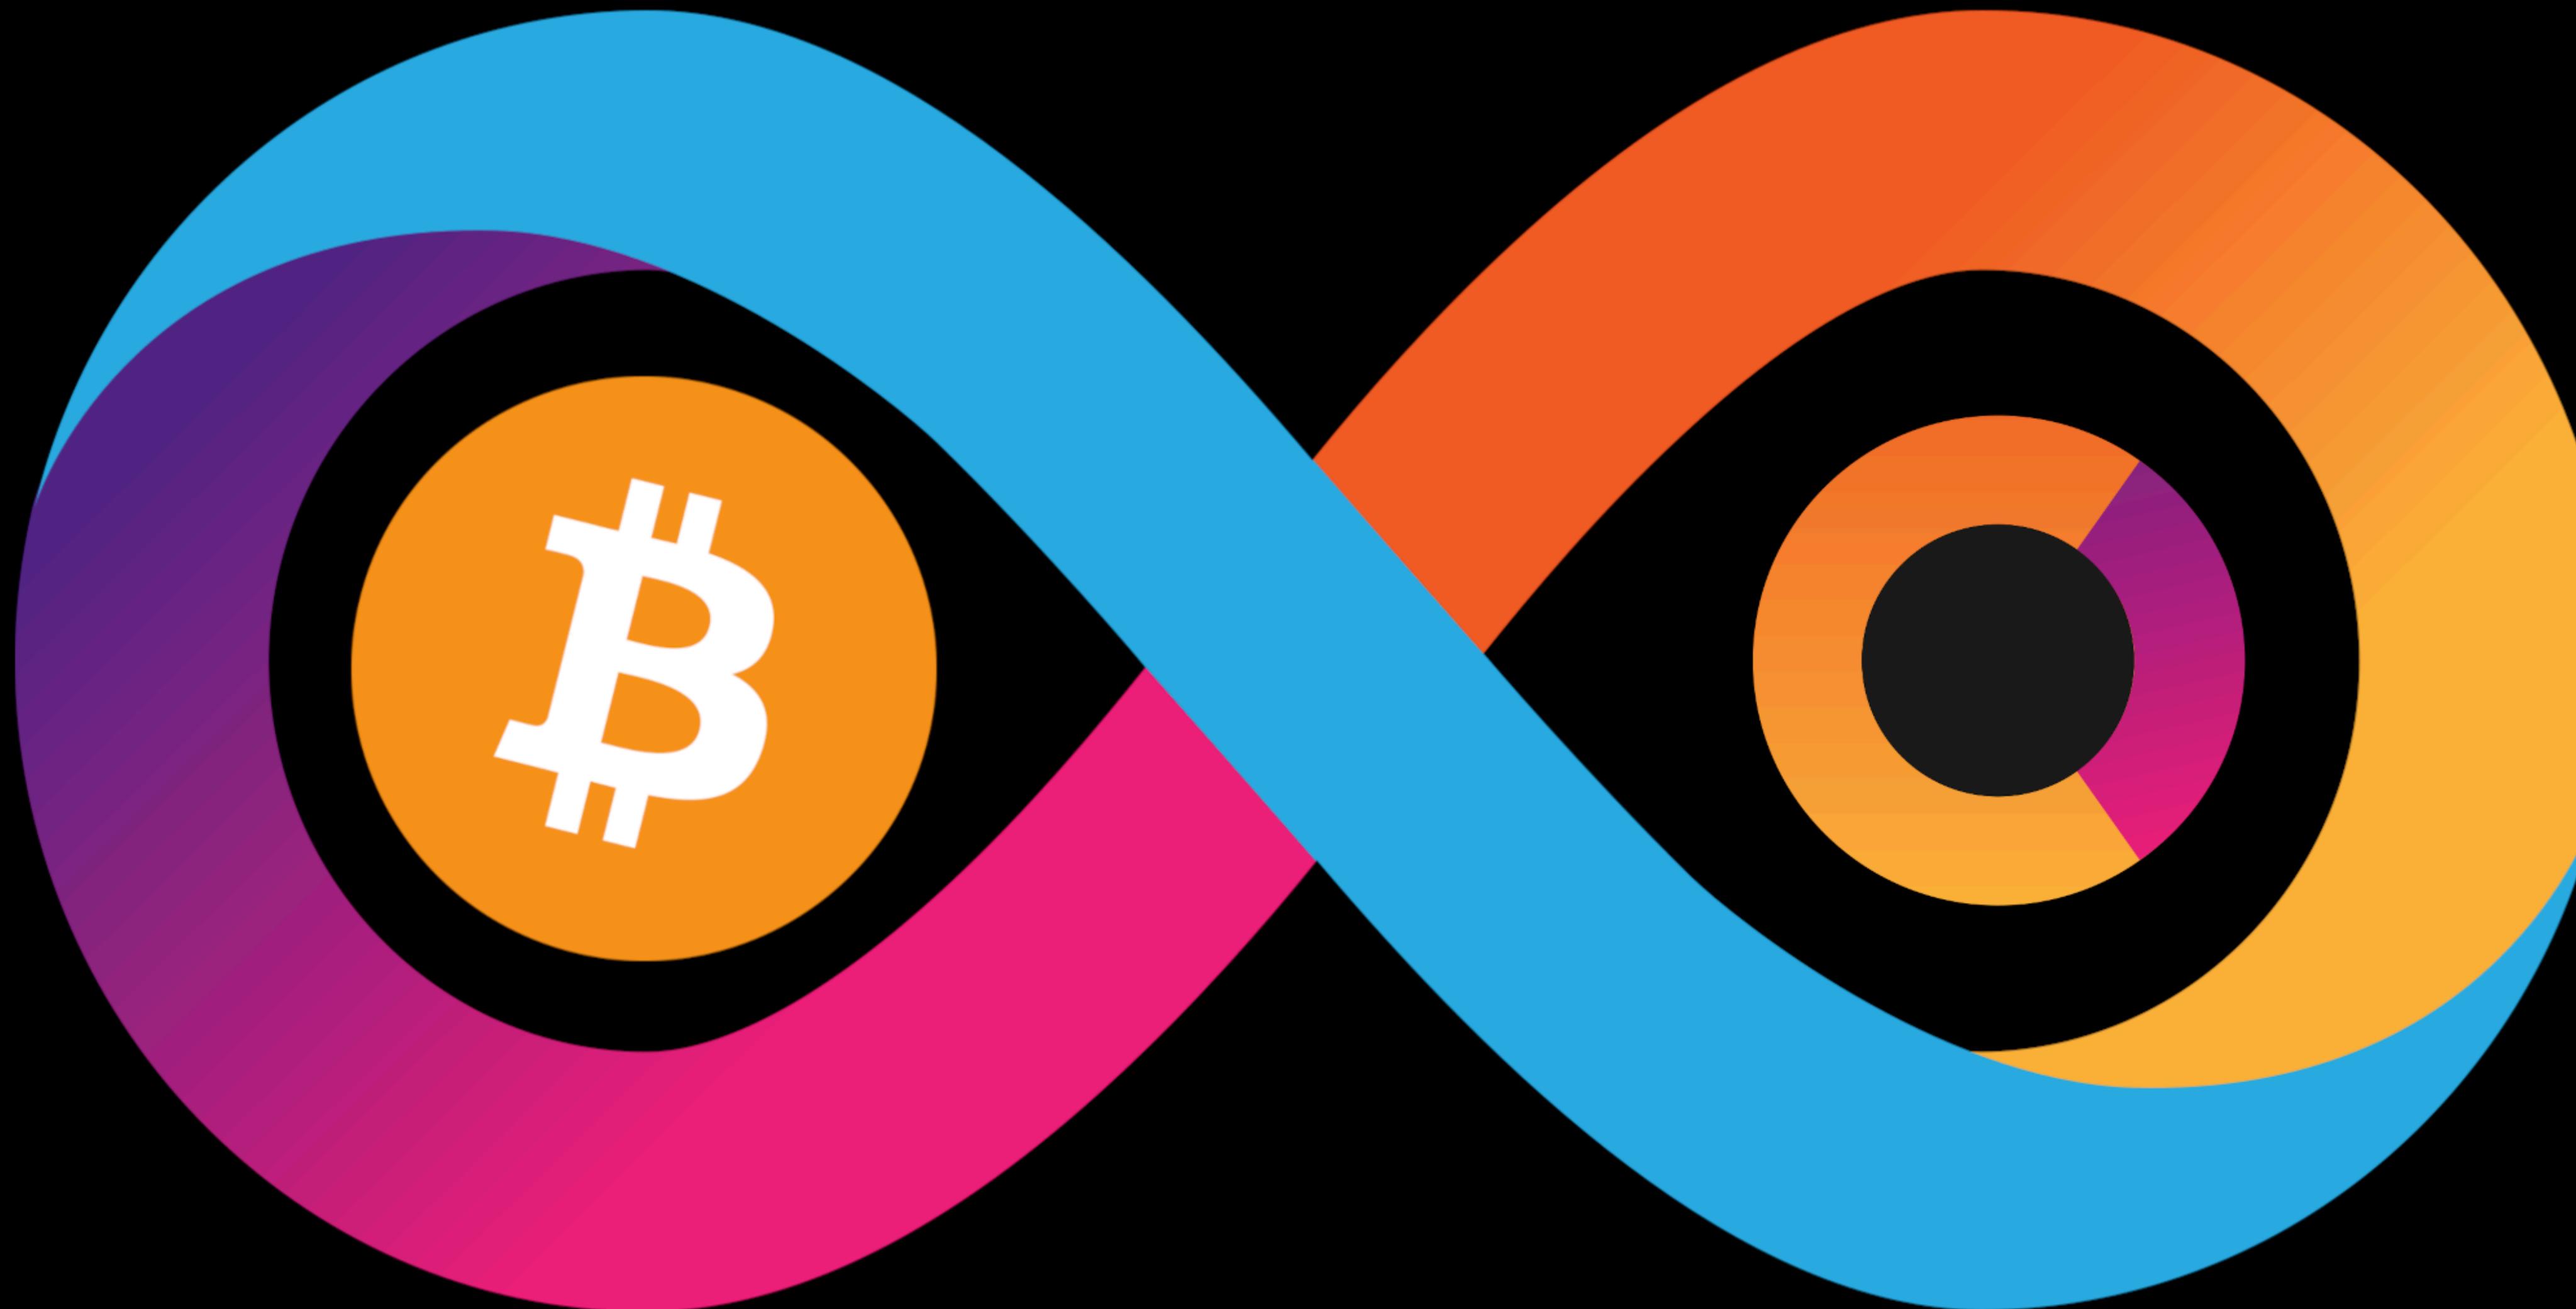

Global movements on sovereign platform from the ground up.

Onchain Bitcoin ETF management
power move in the Ethereum L1 and L2 scene
exchange on sovereign infra

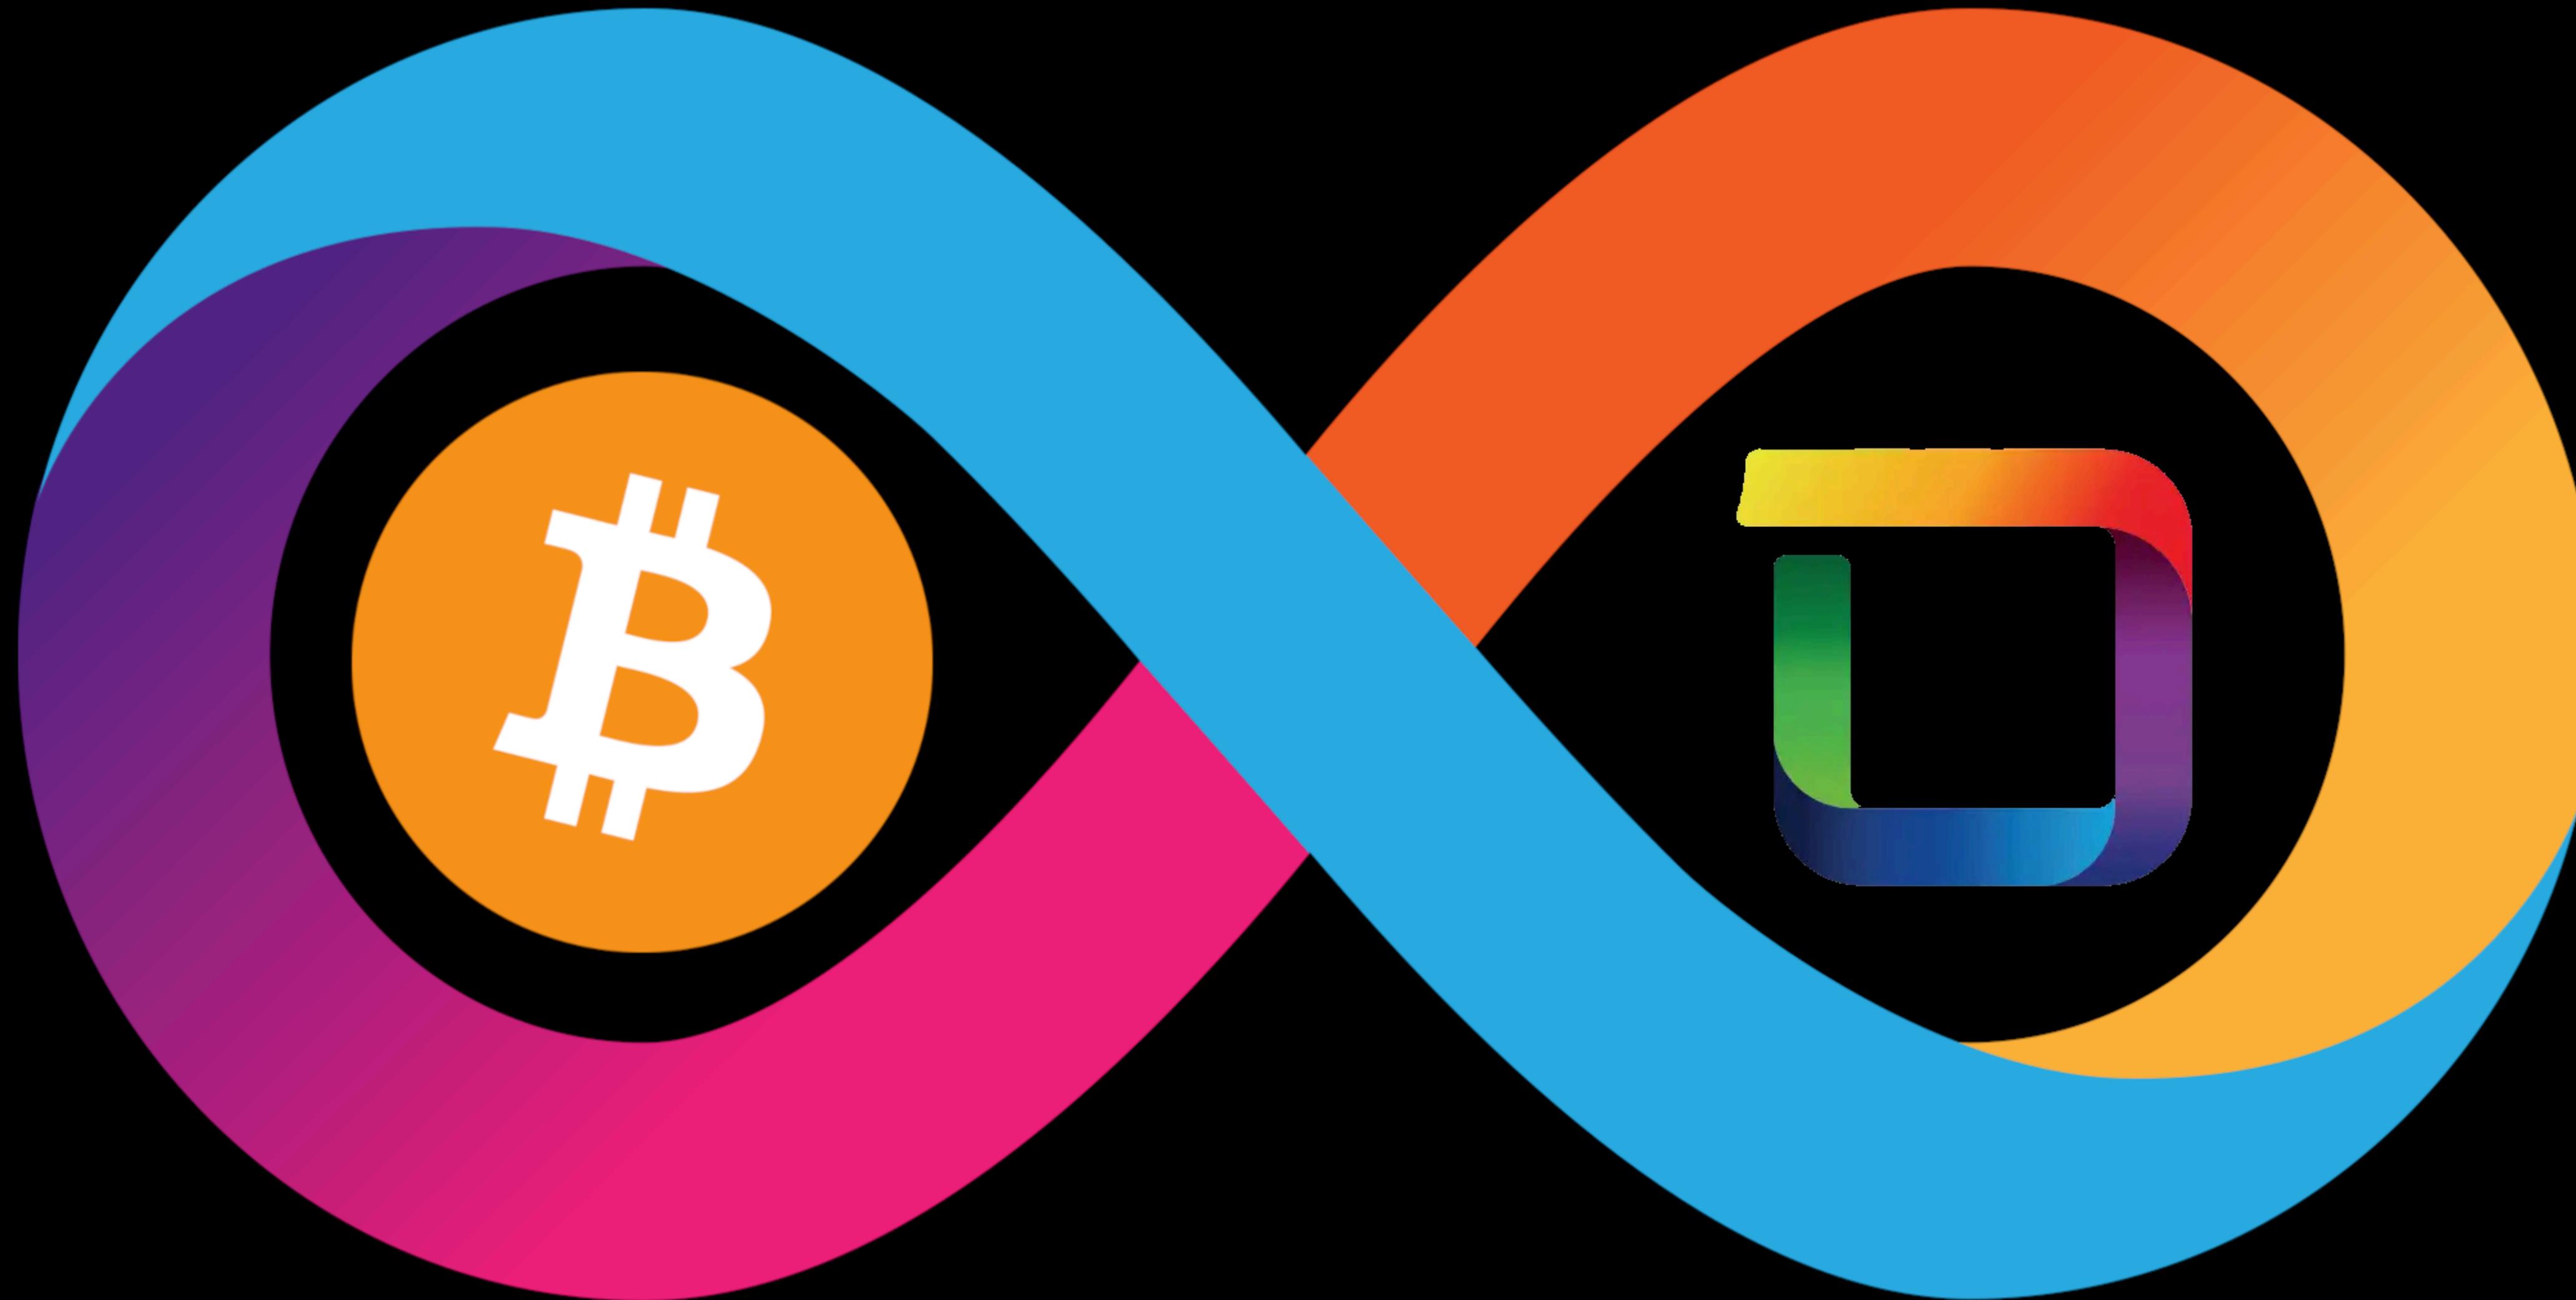

Derisking opportunity for major crypto infrastructure players

OpenChat, a fully onchain web3.0 messaging app
"E2e decentralized Telegram" integrated directly with Bitcoin

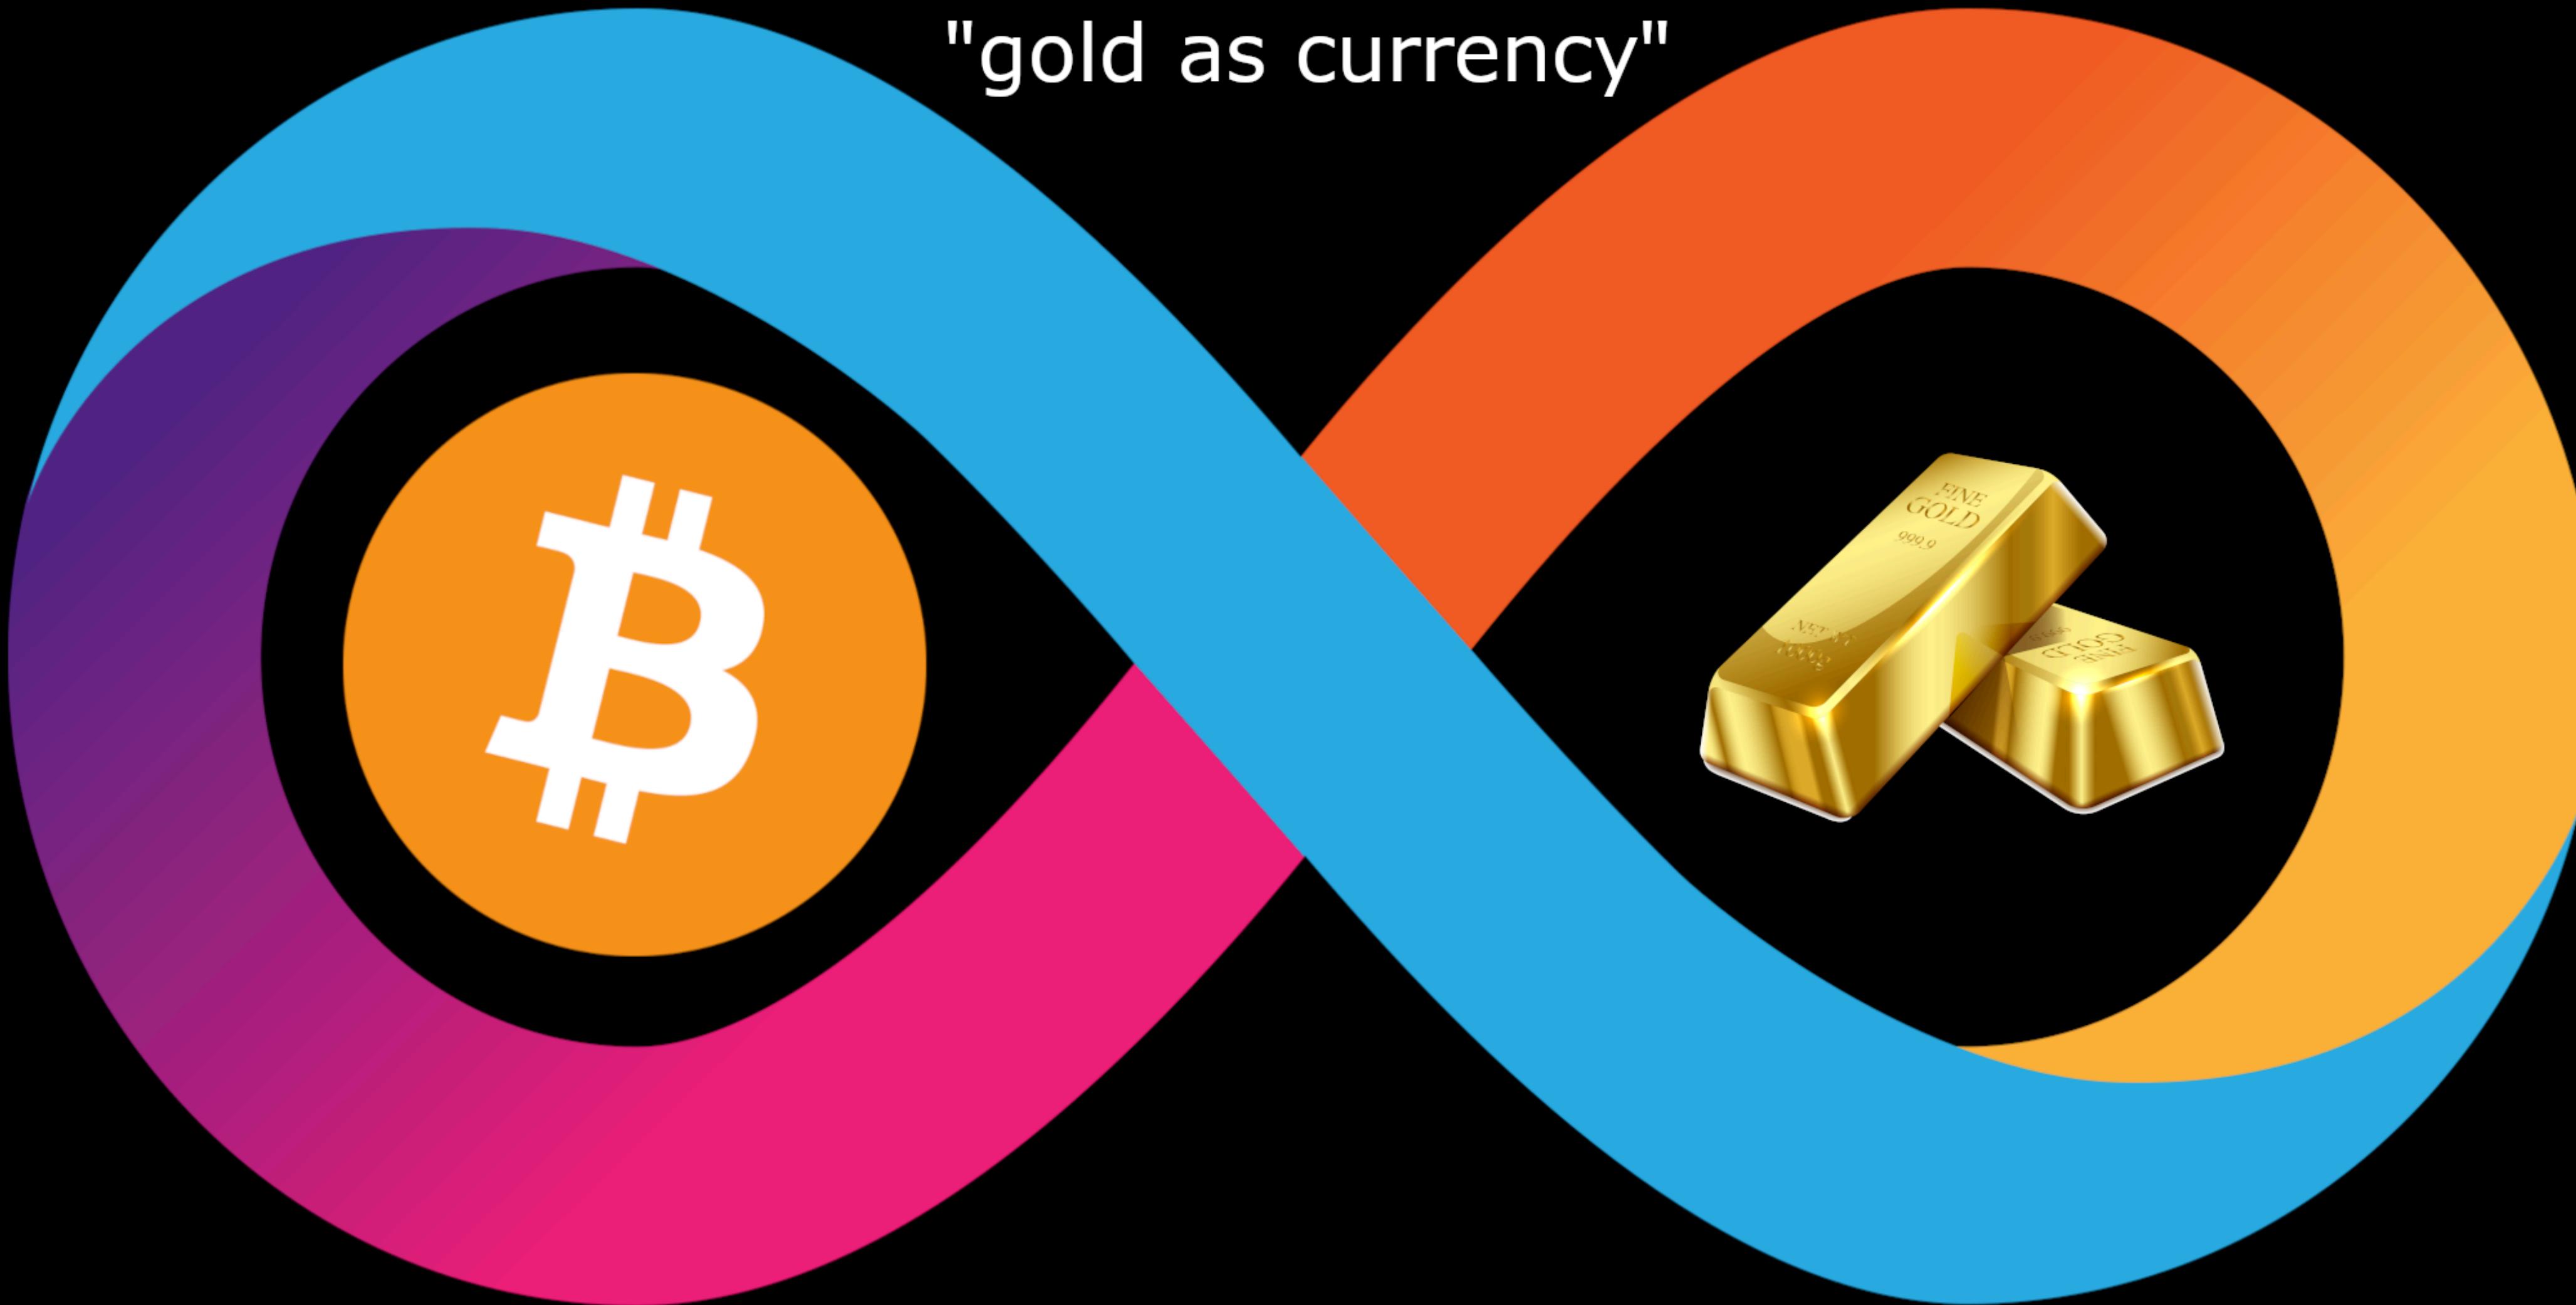

Origyn, pan-industrial/ global RWA solution, fully onchain

Gold DAO, luxury items, certificates, FEDERITALY 100% Made in Italy

E2e onchain gold ecosystem.
NFTs + tokenized gold + gold-backed stablecoin.
"gold as currency"

AI smart contract platform

e2e onchain

Tamperproof, verifiable, next-gen security.

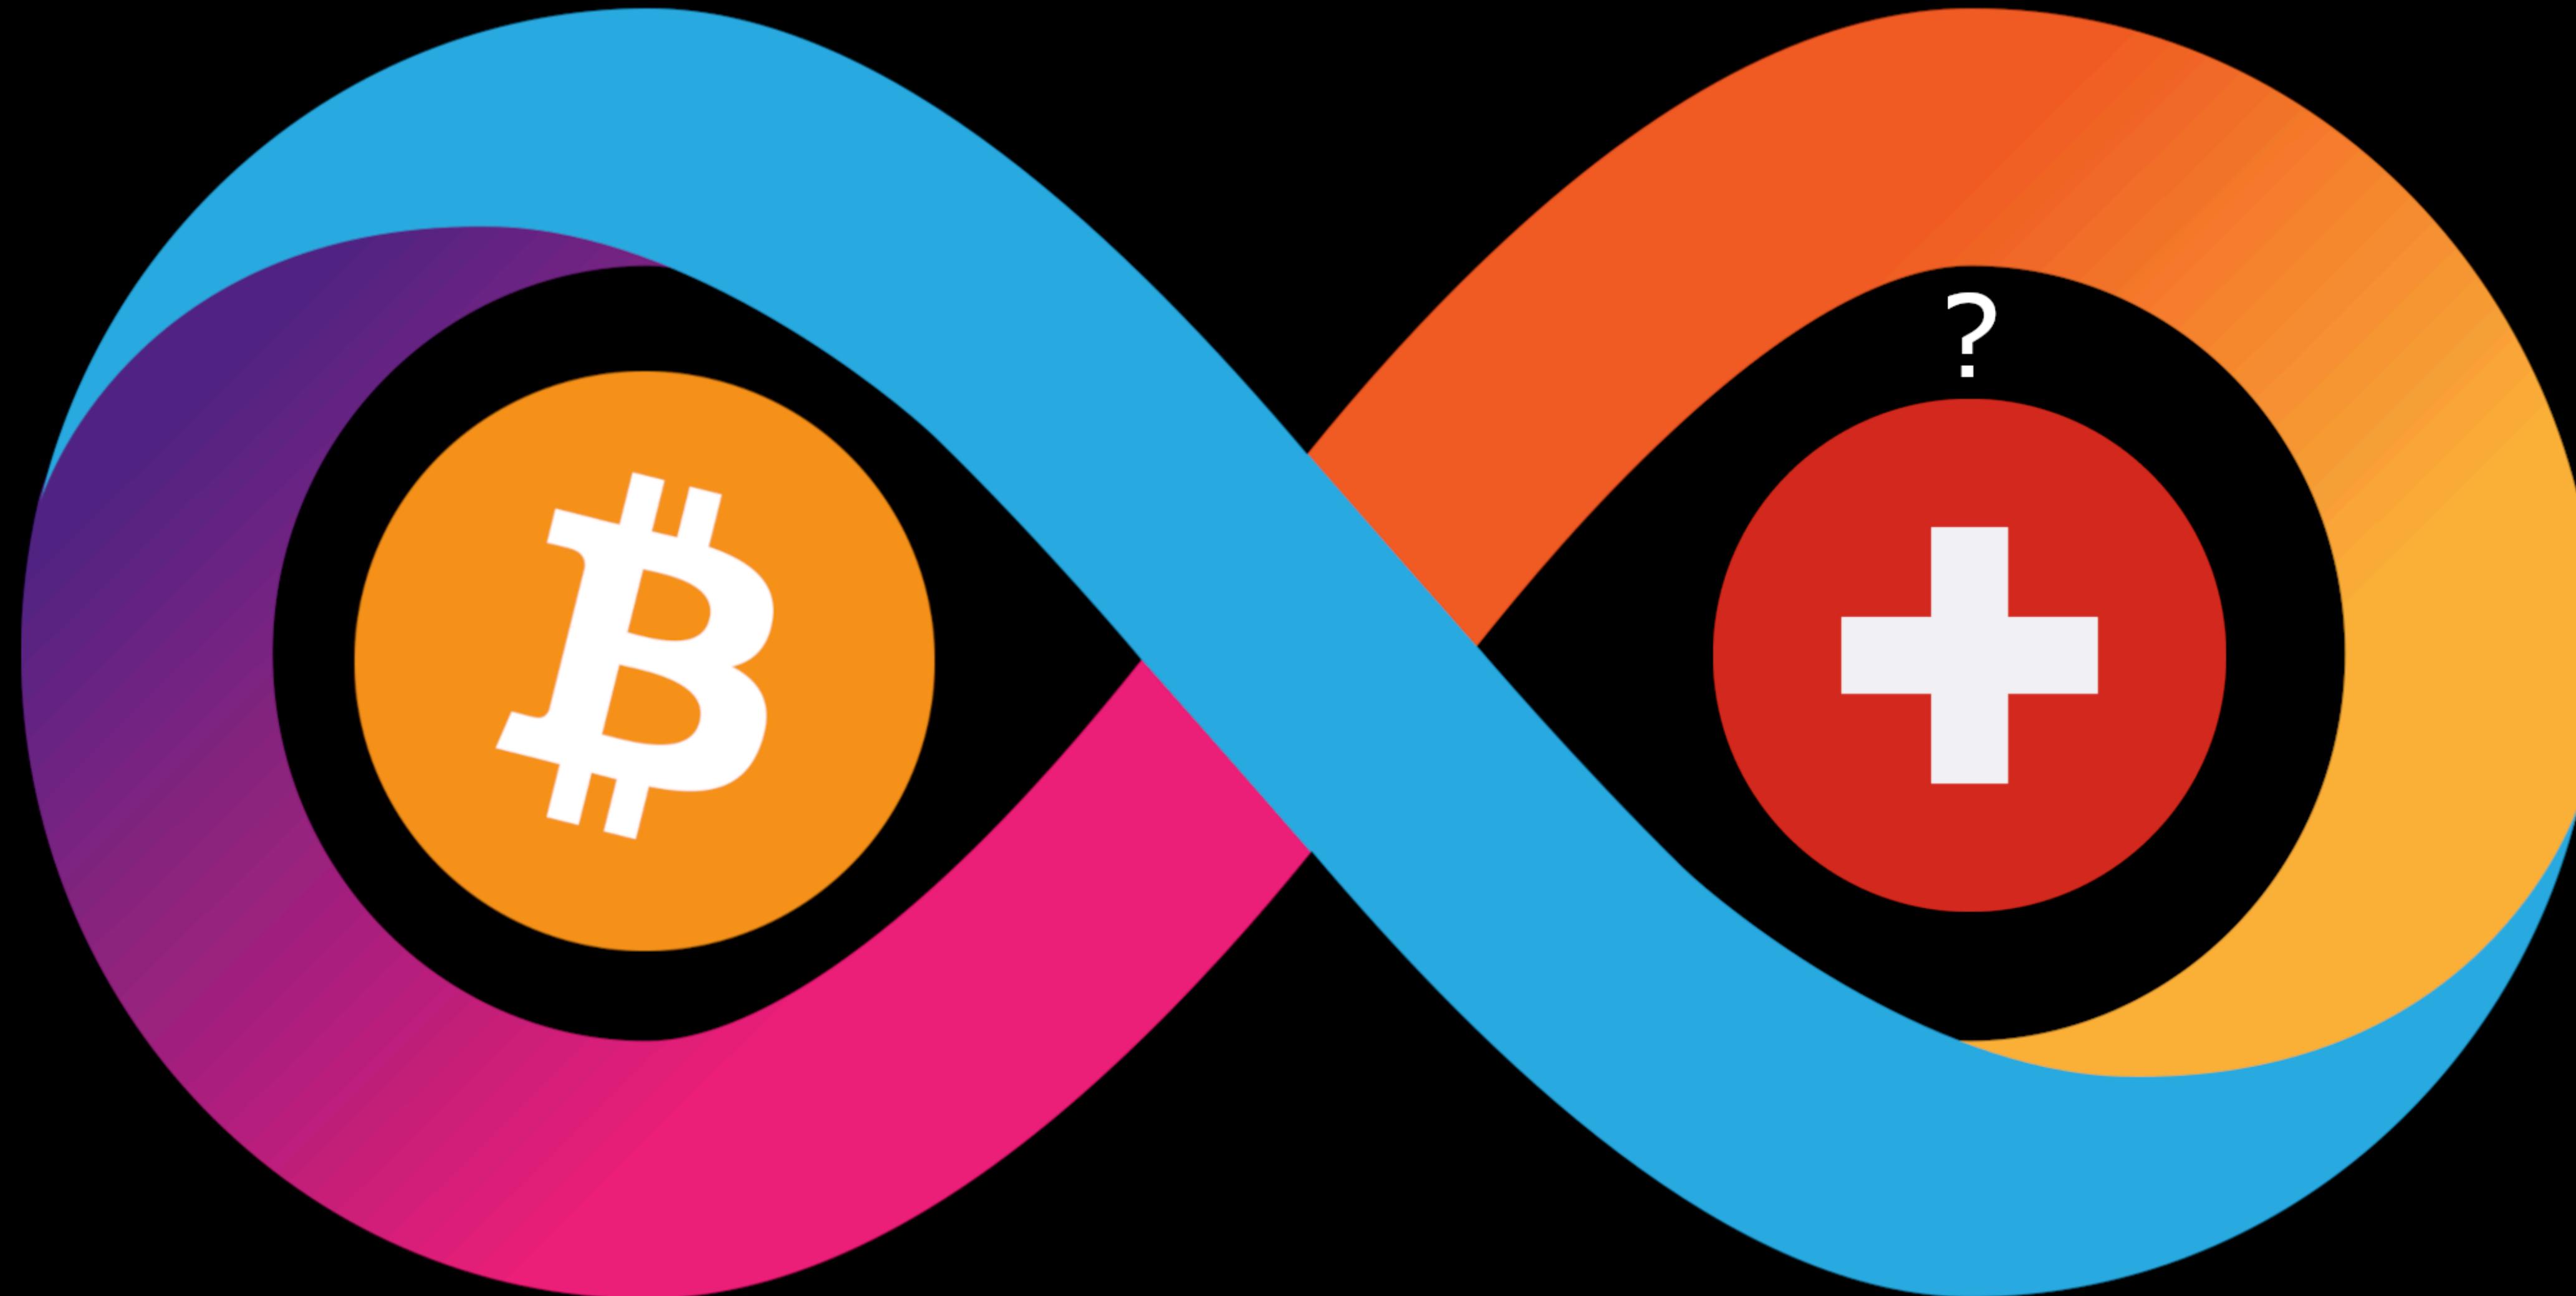

Sensitive LLMs for enterprise, governments, infrastructure, individuals.

Academical interest, unified infrastructure

Knowledge Foundation (top Universities + UN)

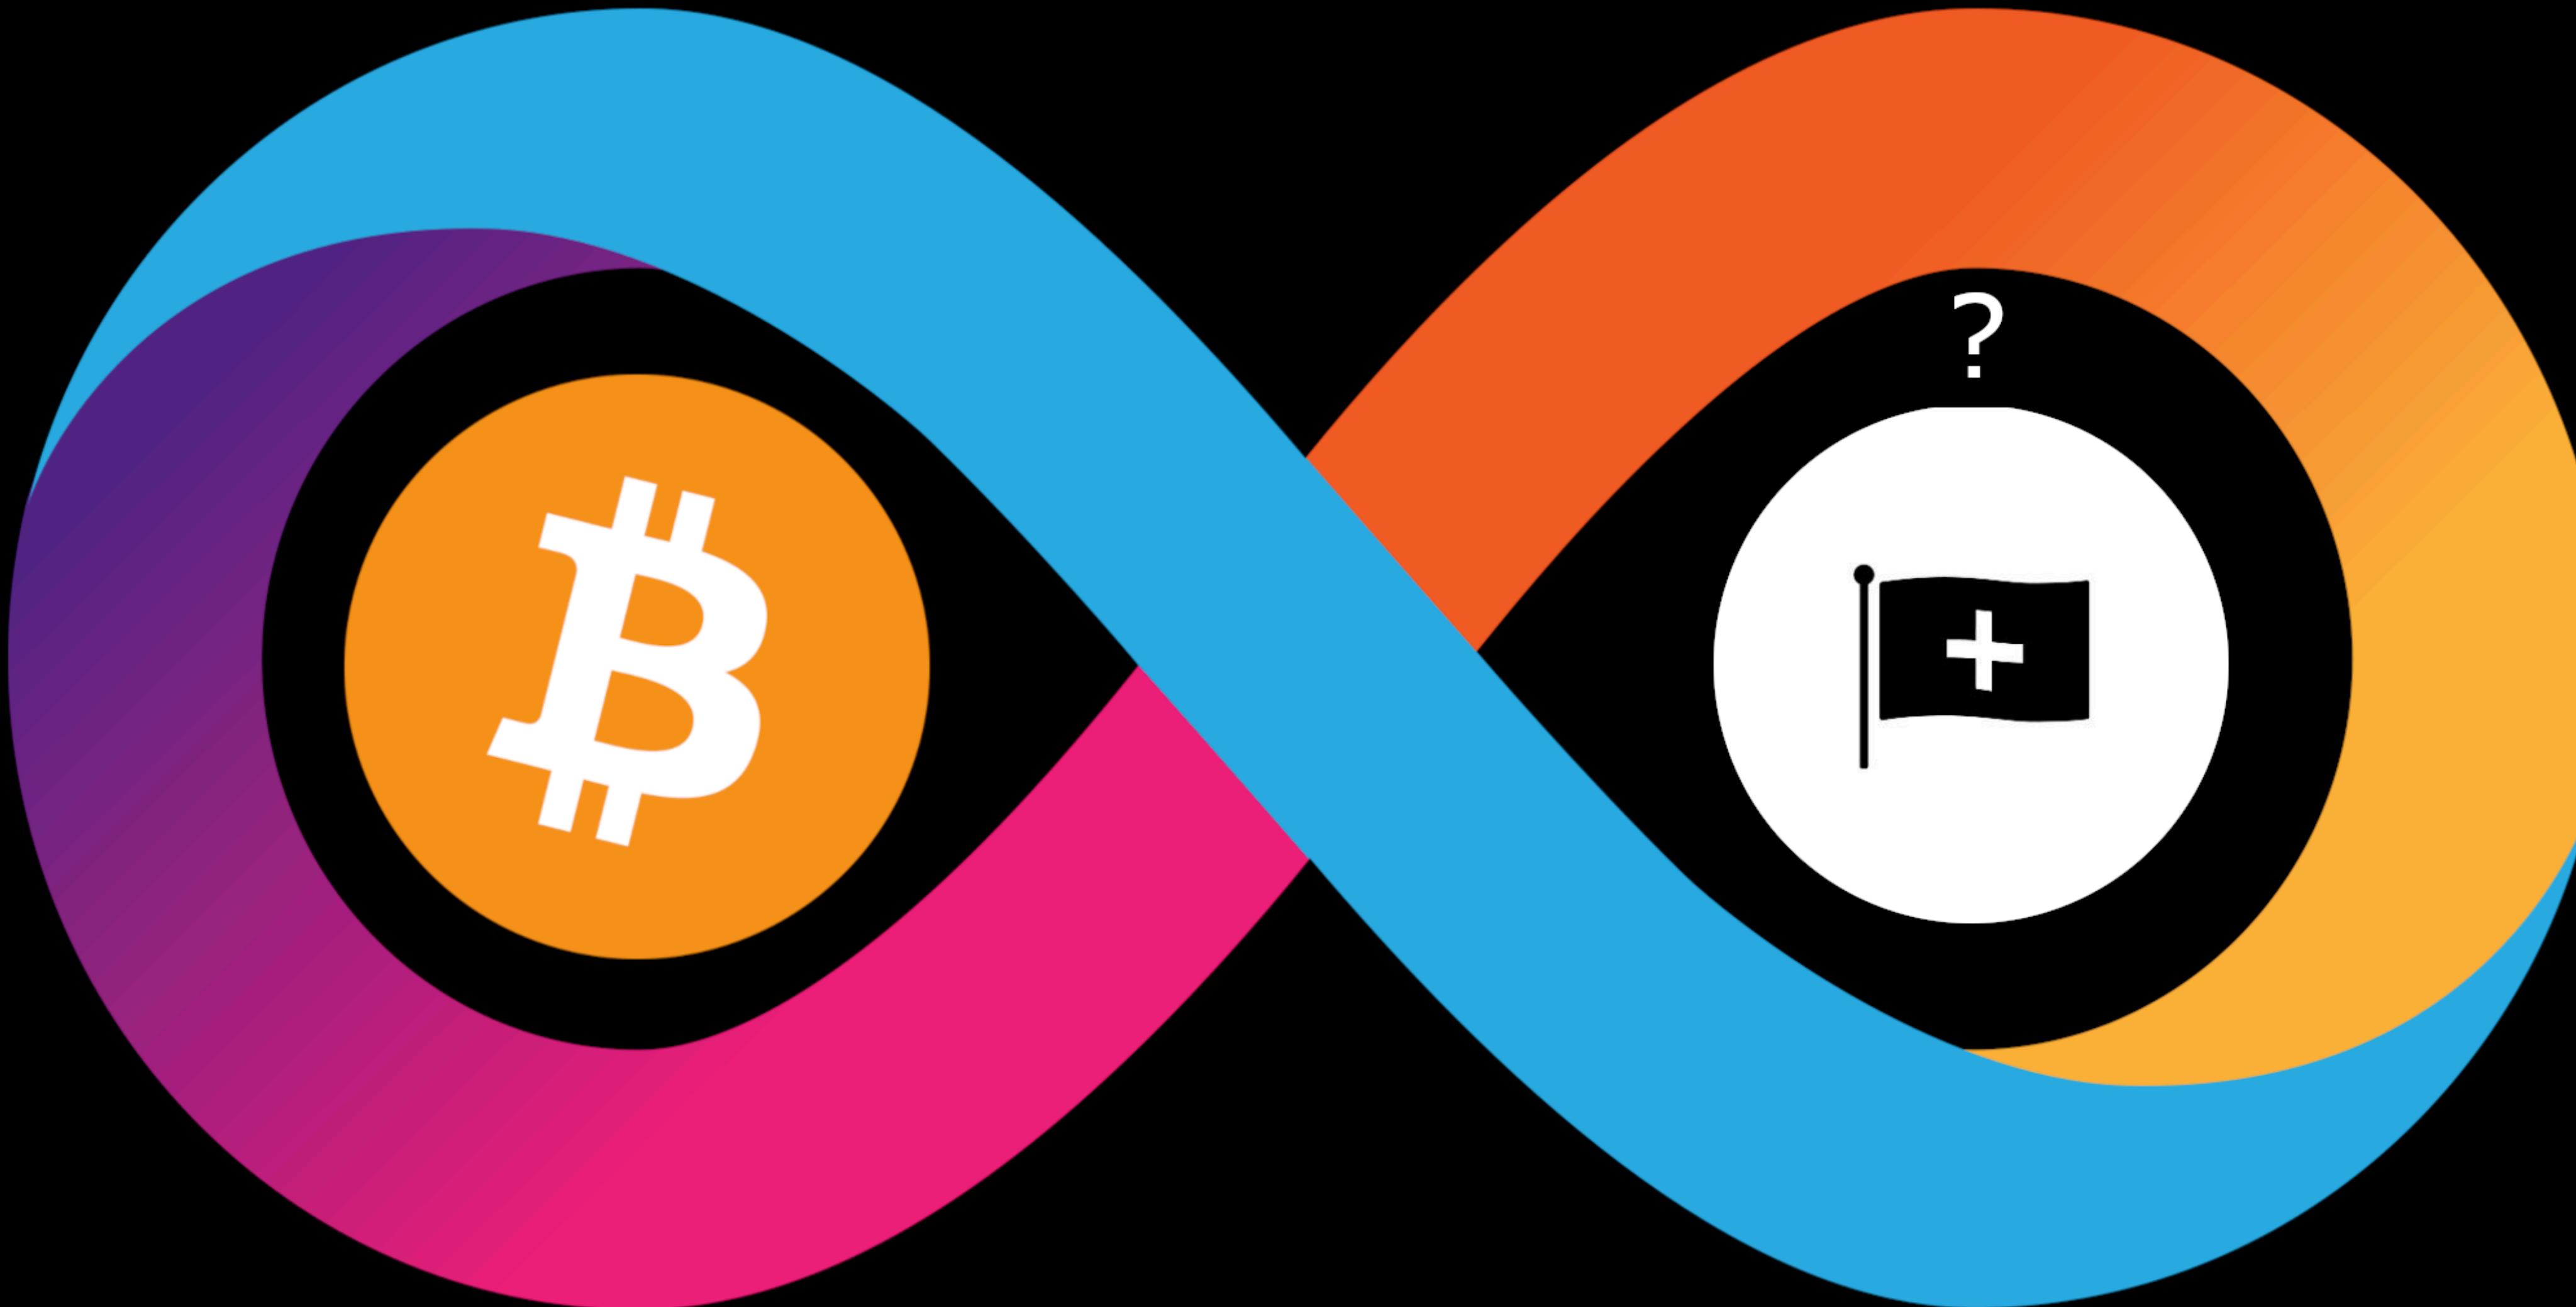

Governmental sovereign cloud

Transparent, secure, efficient and independent software platform
for nation states and global organizations.

Network State infra hosted on SOVEREIGN FULL-STACK ONCHAIN cloud

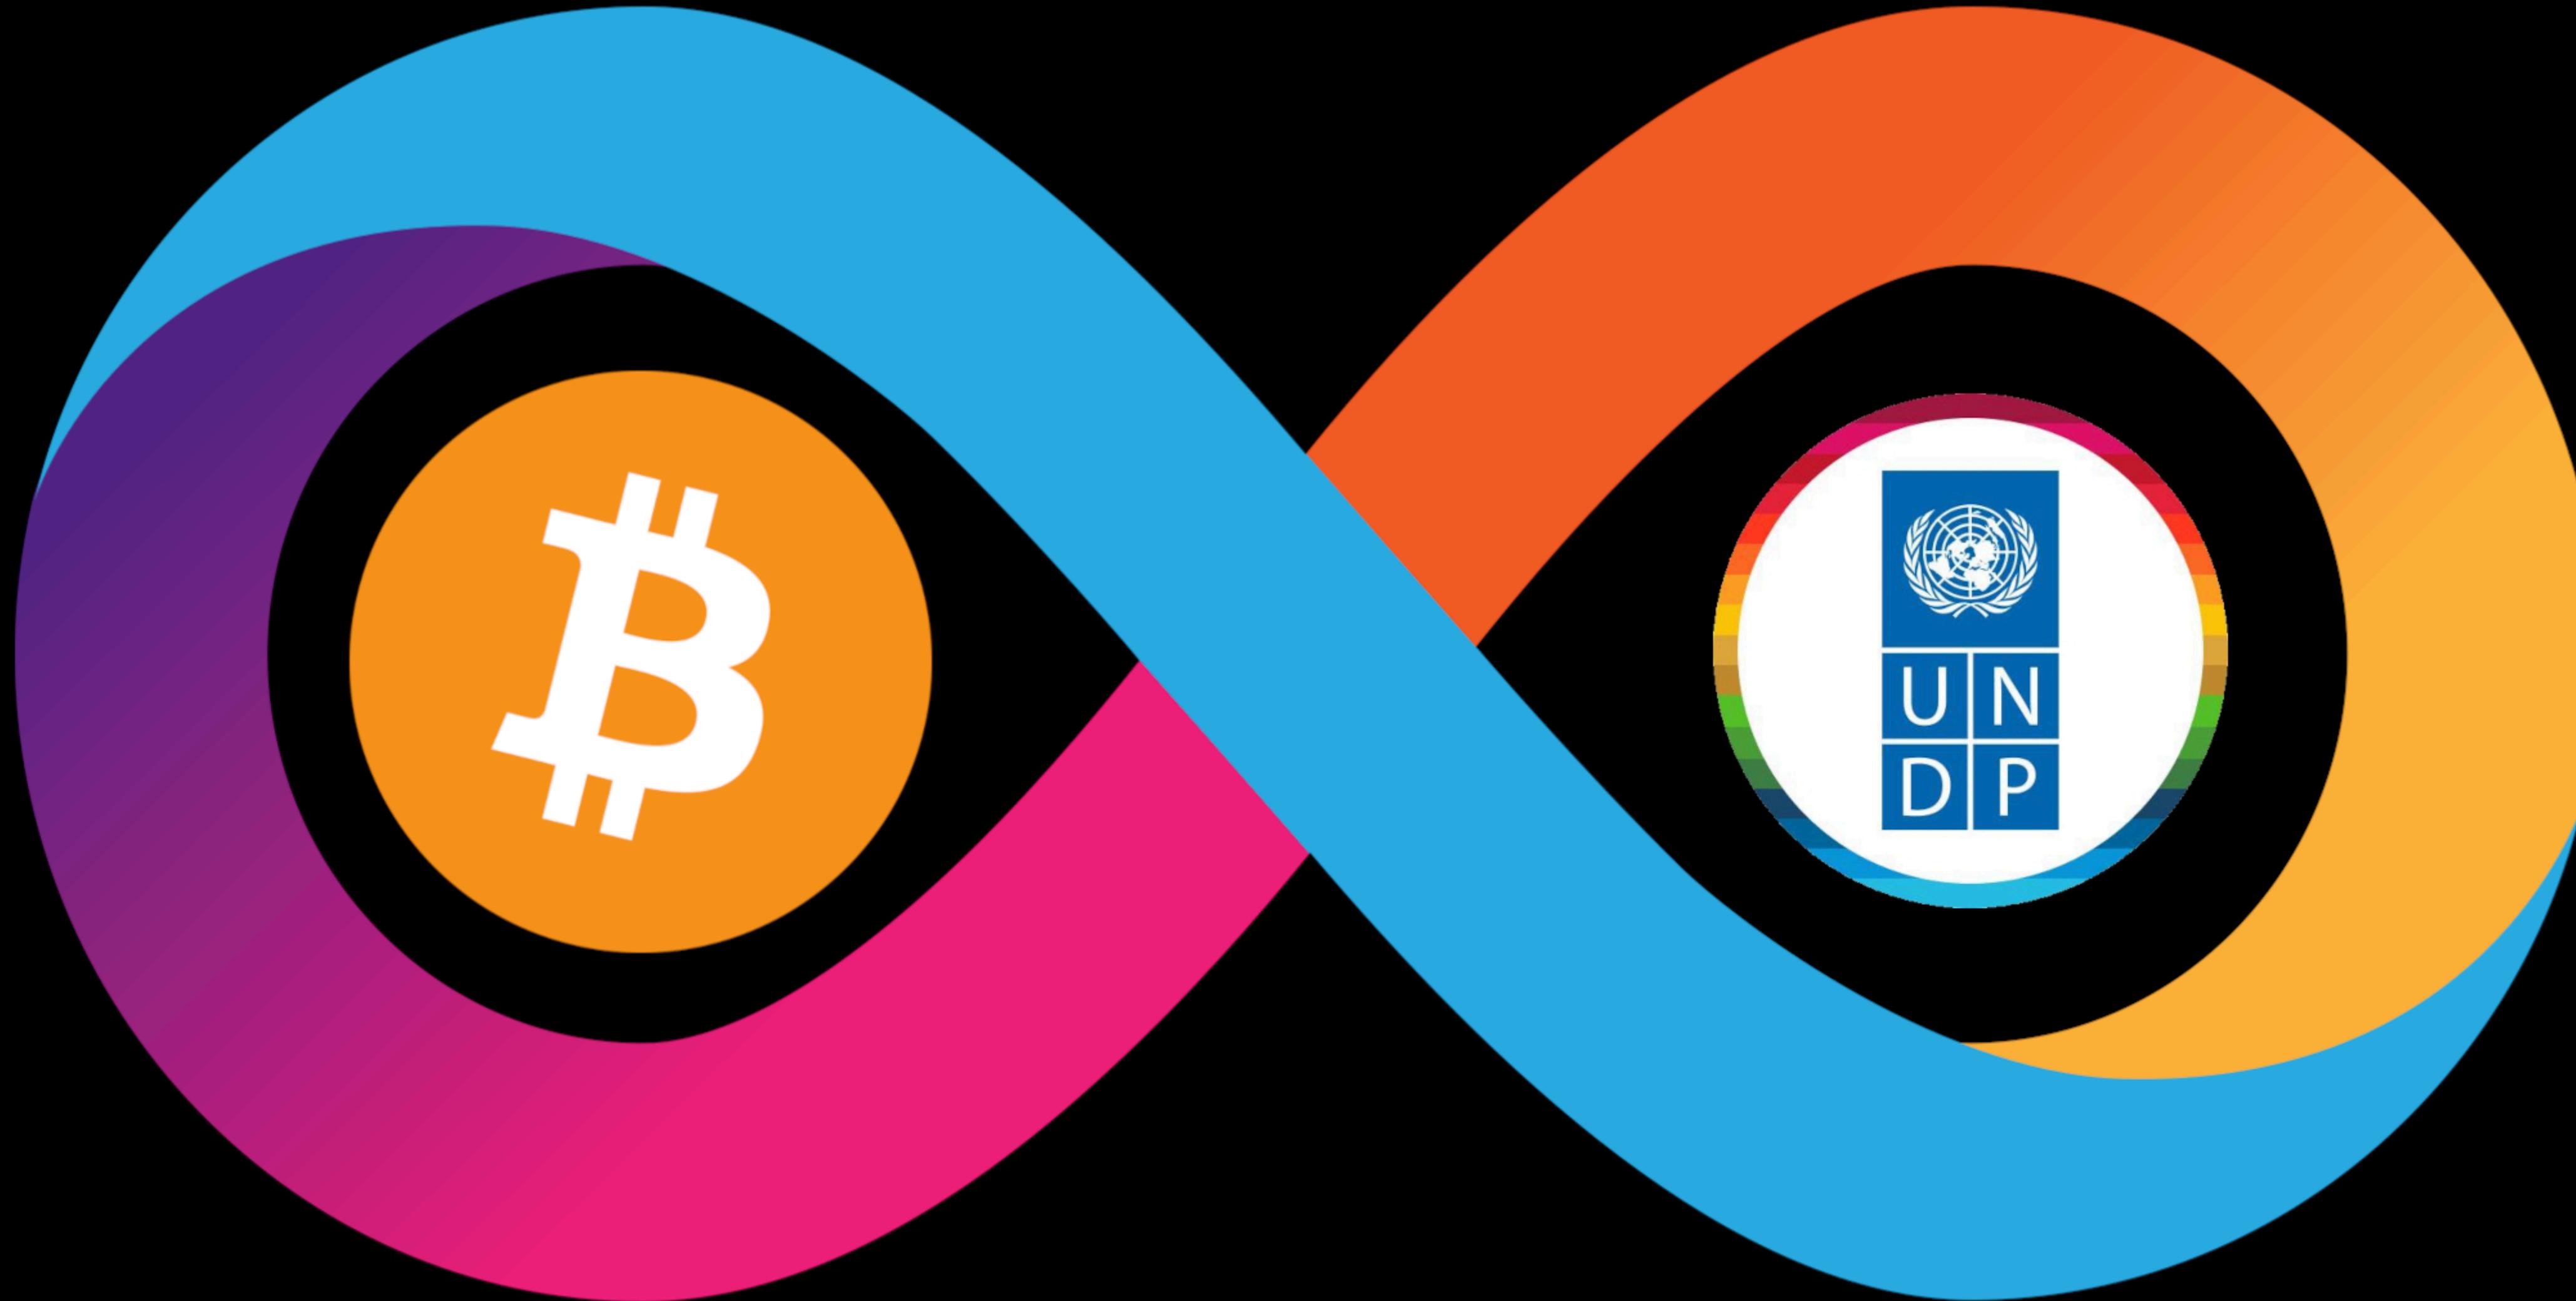

Big Tech

and the great web3.0 migration

Delegate away and solve the riskiest, most complex
and costly liability on the cryptographically secure sovereign platform.
Pivot and dominate web3.0 intellectual space, royalties, licencing.

United Nations & other global and governmental projects
building on sovereign onchain platform

Universal Trusted Credentials, Voluntary Recycling Credits,
smart city @ Cambodia, Indonesia onchain, Manipur Department of Education

Let's collab

ICP is uniquely scale-invariant, for all shapes and sizes.

- end users
- developers
- independent creators
- startups, enterprise, orgs & DAOs
- governments
- Big Tech

Almost impossibly, one missing piece (sovereign cloud protocol) unifies all the leading software as one Web3.0 experience.

ALL ONCHAIN IS THE NEW ONLINE.

34+ Hubs globally; 100+ Grants in 2024;
\$200M+ Funding available

DFINITY Foundation

the largest R&D operation in blockchain

- Blockchain Maximalists driving “blockchain singularity”
- established October 2016 performed 1000-plus R&D years effort
- a Swiss not-for-profit foundation with global operations
- the world’s largest team of cryptographers
- Zürich HQ with 140 team members
- 270+ team members globally
